FEMA Spec'l Flood Hazard Area <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No FEMA Flood Zone X FEMA Map # 17201C0401D FEMA Map Date 09/06/2006 Site Comments: The subject site consists of essentially two rectangles. However, it's shape does not restrict development of the property with a variety of structures. It offers frontage on S. Bell School Road. There is one curb at present and is assumed to be adequate for ingress and egress to the site. The site is of adequate size and shape to allow for a variety of two-family residential uses. It offers a level topography and is not in a flood zone. The northern portion of the subject property abuts an existing single-family residential development to the north.

GP Land: Site Description - Zoning Description

R2, Two Family Residence District. The subject is governed by the zoning ordinance for Winnebago County. It is located in Rockford Township. It allows for development with any use permitted in the RR rural residential district and two-family dwellings.

GP Land: Site Description - Summary of Highest & Best Use

The highest and best use, is to hold the site for future development with two-family residential uses, consistent with the permitted uses under the zoning ordinance when market conditions warrant.

GP Land: Market Area - Comments

The subject land is zoned R-2, Two Family Residential Development. It adjoins another large parcel zoned R-2. Further south is a commercial/retail development known as Bell Valley Commons. The subject site adjoins an existing, mature, residential subdivision to the north. I-90 is located to the east and Bell School Road to the west.

The subject is located adjacent to a developing office/retail area approximately 1 mile north of CherryVale Mall. The subject area is located at the northeast quadrant of the intersection of S. Bell School and Newburg Roads. The development in which the subject is located is known as Bell Valley Commons with zoning allowing for office, restaurant or retail development. The sites located within this development offer substantial infrastructure in-place. Currently a large, multi-tenant, multi-story office building is located on one of the parcels that fronts the tollway. A Casey's General Store gas station/c-store is currently under construction on a corner lot that fronts S. Bell School Road at Temple Ct. It offers close proximity to I-39/I-90 tollway access. E. State Street is located a short distance to the north. U.S. Route 20 a primary east/west highway that connects the subject market area with communities both east and west is located a short distance to the south. U.S. Route 20 provides good access to communities to the west including Freeport, Lena, Stockton and as far west as Galena and the Mississippi River. A portion of Bell Valley Commons offers lots that front, I-90. A full intersection with I-90 is located approximately 1.5 miles northeast of the subject at E. State Street. A full interchange with I-39 provides access various tollways and expressways including I-88, I-80 and southern Illinois is located approximately 1.5 miles south of the subject at U.S. Route 20/Harrison Avenue.

The overall market has seen some improvement after many years of stagnation. The majority of new commercial/retail development is in the area near E. Riverside Boulevard and I-90 where the new MercyHealth Complex was constructed and opened in early January 2019. This has spurred development in the vicinity with a new hotel, currently under construction, a Casey General Store Gas Station/C-store, and a recently completed Costco Retail Development. Some of the highest prices involving land sales have been along the E. Riverside Corridor between Mulford Road on the west and Paulson Road on the east.

Residential development is slow, however, some positive trends have been identified over the past 12 months. Overall, residential acreage sale prices have remained relatively stable over the past five plus years. Numerous listings of single family and multi-family acreage parcels are listed for sale for extended periods of time.

Due to the relatively stagnant residential housing market in the Rockford area, the majority of the sales of residential acreage and bulk lots in platted subdivisions demonstrate some duress. Sales are primarily bank-owned or distressed properties. Owners who do not need to sell are not willing to sell at distressed prices and therefore are holding on to their properties for the long-term, until market conditions improve.

The subject lot represents vacant land with all utilities available. It is well-situated for future residential development with two-unit structures. It is currently raw land and is not platted.

GP Land: Summary of Sales Comparison Approach

Relatively few sales of residentially zoned land have taken place in the Rockford Metro Area over the past several years due to slow residential sales activity.

Overall, only a limited number of residentially zoned acreage parcels have sold since 2015. Four land sales have been presented and analyzed in this report. None of the acreage sales are as large as the subject. All comps needed adjustment for size as all other elements of comparison being equal or adjusted for, typically sell for lower unit prices than smaller parcels due to economies of scale. Analysis of sales data and discussions with local realtors and market participants indicate that there is essentially no discernable difference in per square foot or per acre sale prices between single family zoned sites and multi-family zoned sites.

Comp 1 is an existing subdivision that is platted for 40 single family lots in SE Rockford near 35th Street and U.S. Route 20. Comp 2 is the sale of a site in Belvidere, Boone County located in a less densely populated residential area. Comp 3 is the sale of a site that sold for development with a relatively high density rental apartment complex near E. State Street and New Towne Drive. Comp 4 is located in Rockton and is zoned for either single family, or attached single family (duplex) uses.

The appraiser was also made aware of an offer on the subject property by ownership. A copy of the offer was not provided, however, it was reported to be for \$700,000. The ownership stated that the offer was made by an unnamed developer of senior housing. Given the lack of recent sales of similar properties, the appraiser has considered this offer along with the sales presented and analyzed in developing the estimated fair market value for the subject.

The subject is larger in size when compared to the comparable sales identified. Comps were adjusted for size accordingly. Due to the limited pool of comparable sales, it was necessary to extend the search to other portions of Winnebago and Boone Counties and including single family zoning.

After adjustment for the various elements of comparison as detailed in the adjustment grid, A relatively narrow range of adjusted sale prices resulted. The range after adjustment was \$1.01 to \$1.49 per square foot of site area. Comp 2 located in Boone County was an outlier at \$1.49 per square foot. The remaining three comps ranged from \$1.01 to \$1.21 per square foot of site area. Approximately equal consideration has been given all comps as well as the recent offer on the subject. Given the subject's location and other physical characteristics a value near the mid point of the adjusted range of all of the comps is considered reasonable for the subject. The estimate of fair market value for the subject is \$1.50 per square foot of site area. $\$1.50/\text{SF} \times 496,051 = \$744,077$, or \$745,000 rd.

GP Land: Reconciliation - Final Reconciliation

The Sales Comparison is the only relevant method to appraise vacant land and is therefore, the only value developed. Emphasis has been placed on the adjusted sale price of all comps.

GP Land: Site Description - Uses Allowed Under Current Zoning

Any use permitted under the RR, Rural Residential and two-family dwellings are permitted under this zoning. The Village of Cherry Valley reports that the current zoning map reflected on WINGIS is incorrect as it shows 3 different zonings. A copy of the correspondence from the Village of Cherry Valley is retained in the appraiser's workfile. A copy of this correspondence has been provided to ownership. It is assumed for purposes of this appraisal that the correct underlying zoning as reflected on the subject's WINGIS property record card of R-2 is correct at this time. According to the Village of Cherry Valley single family and multi-family uses are permitted in under the R-2 zoning. This reportedly includes senior housing.

GP Land Certifications Addendum: Certifications

APPRAISER'S CERTIFICATION

I certify that, to the best of my knowledge and belief:

- The statements of fact contained in this report are true and correct.
- The credibility of this report, for the stated use by the stated user(s), of the reported analyses, opinions, and conclusions are limited only by the reported assumptions and limiting conditions, and are my personal, impartial, and unbiased professional analyses, opinions, and conclusions.
- I have no present or prospective interest in the property that is the subject of this report and no personal interest with respect to the parties involved.
- Unless otherwise indicated, I have performed no services, as an appraiser or in any other capacity, regarding the property that is the subject of this report within the three-year period immediately preceding acceptance of this assignment.
- I have no bias with respect to the property that is the subject of this report or to the parties involved with this assignment.
- My engagement in this assignment was not contingent upon developing or reporting predetermined results.
- My compensation for completing this assignment is not contingent upon the development or reporting of a predetermined value or direction in value that favors the cause of the client, the amount of the value opinion, the attainment of a stipulated result, or the occurrence of a subsequent event directly related to the intended use of this appraisal.
- My analyses, opinions, and conclusions were developed, and this report has been prepared, in conformity with the Uniform Standards of Professional Appraisal Practice that were in effect at the time this report was prepared.
- I did not base, either partially or completely, my analysis and/or the opinion of value in the appraisal report on the race, color, religion, sex, handicap, familial status, or national origin of either the prospective owners or occupants of the subject property, or of the present owners or occupants of the properties in the vicinity of the subject property.
- Unless otherwise indicated, I have made a personal inspection of the property that is the subject of this report.
- Unless otherwise indicated, no one provided significant real property appraisal assistance to the person(s) signing this certification.

Additional Certifications:

I have performed prior appraisal or other professional services regarding this property over the past three years. This includes a prior appraisal of this property dated October 19, 2019. This appraisal was prepared prior to the owner informing the appraiser of an offer to purchase the subject for \$700,000. Due to this new information the subject has been appraised as of this more recent date, taking into consideration the new offering information. This November 14, 2019 appraisal supercedes the October 19, 2019 appraisal.

DEFINITION OF MARKET VALUE *:

Market value means the most probable price which a property should bring in a competitive and open market under all conditions requisite to a fair sale, the buyer and seller each acting prudently and knowledgeably, and assuming the price is not affected by undue stimulus.

Implicit in this definition is the consummation of a sale as of a specified date and the passing of title from seller to buyer under conditions whereby:

1. Buyer and seller are typically motivated;
2. Both parties are well informed or well advised and acting in what they consider their own best interests;
3. A reasonable time is allowed for exposure in the open market;
4. Payment is made in terms of cash in U.S. dollars or in terms of financial arrangements comparable thereto; and
5. The price represents the normal consideration for the property sold unaffected by special or creative financing or sales concessions granted by anyone associated with the sale.

* This definition is from regulations published by federal regulatory agencies pursuant to Title XI of the Financial Institutions Reform, Recovery, and Enforcement Act (FIRREA) of 1989 between July 5, 1990, and August 24, 1990, by the Federal Reserve System

(FRS), National Credit Union Administration (NCUA), Federal Deposit Insurance Corporation (FDIC), the Office of Thrift Supervision (OTS), and the Office of Comptroller of the Currency (OCC). This definition is also referenced in regulations jointly published by the OCC, OTS, FRS, and FDIC on June 7, 1994, and in the Interagency Appraisal and Evaluation Guidelines, dated October 27, 1994.

Assumptions, Limiting Conditions & Scope of Work

Property Address: 1032 Bell School Road - PIN: 12-26-401-002 City: Rockford State: IL Zip Code: 61108
Client: [REDACTED] Address: [REDACTED]
Appraiser: Gail M. Wills Address: 3268 Kregel Drive, Rockford, IL 61109

STATEMENT OF ASSUMPTIONS & LIMITING CONDITIONS

- The appraiser will not be responsible for matters of a legal nature that affect either the property being appraised or the title to it. The appraiser assumes that the title is good and marketable and, therefore, will not render any opinions about the title. The property is appraised on the basis of it being under responsible ownership.
- The appraiser may have provided a plat and/or parcel map in the appraisal report to assist the reader in visualizing the lot size, shape, and/or orientation. The appraiser has not made a survey of the subject property.
- If so indicated, the appraiser has examined the available flood maps that are provided by the Federal Emergency Management Agency (or other data sources) and has noted in the appraisal report whether the subject site is located in an identified Special Flood Hazard Area. Because the appraiser is not a surveyor, he or she makes no guarantees, express or implied, regarding this determination.
- The appraiser will not give testimony or appear in court because he or she made an appraisal of the property in question, unless specific arrangements to do so have been made beforehand.
- The appraiser has noted in the appraisal report any adverse conditions (including, but not limited to, the presence of hazardous wastes, toxic substances, etc.) observed during the inspection of the subject property, or that he or she became aware of during the normal research involved in performing the appraisal. Unless otherwise stated in the appraisal report, the appraiser has no knowledge of any hidden or unapparent conditions of the property, or adverse environmental conditions (including, but not limited to, the presence of hazardous wastes, toxic substances, etc.) that would make the property more or less valuable, and has assumed that there are no such conditions and makes no guarantees or warranties, express or implied, regarding the condition of the property. The appraiser will not be responsible for any such conditions that do exist or for any engineering or testing that might be required to discover whether such conditions exist. Because the appraiser is not an expert in the field of environmental hazards, the appraisal report must not be considered as an environmental assessment of the property.
- The appraiser obtained the information, estimates, and opinions that were expressed in the appraisal report from sources that he or she considers to be reliable and believes them to be true and correct. The appraiser does not assume responsibility for the accuracy of such items that were furnished by other parties.
- The appraiser will not disclose the contents of the appraisal report except as provided for in the Uniform Standards of Professional Appraisal Practice, and any applicable federal, state or local laws.
- An appraiser's client is the party (or parties) who engage an appraiser in a specific assignment. Any other party acquiring this report from the client does not become a party to the appraiser-client relationship. Any persons receiving this appraisal report because of disclosure requirements applicable to the appraiser's client do not become intended users of this report unless specifically identified by the client at the time of the assignment.
- The appraiser's written consent and approval must be obtained before this appraisal report can be conveyed by anyone to the public, through advertising, public relations, news, sales, or by means of any other media, or by its inclusion in a private or public database. Possession of this report or any copy thereof does not carry with it the right of publication.
- Forecasts of effective demand for the highest and best use or the best fitting and most appropriate use were based on the best available data concerning the market and are subject to conditions of economic uncertainty about the future.

The Scope of Work is the type and extent of research and analyses performed in an appraisal assignment that is required to produce credible assignment results, given the nature of the appraisal problem, the specific requirements of the intended user(s) and the intended use of the appraisal report. Reliance upon this report, regardless of how acquired, by any party or for any use, other than those specified in this report by the Appraiser, is prohibited. The Opinion of Value that is the conclusion of this report is credible only within the context of the Scope of Work, Effective Date, the Date of Report, the Intended User(s), the Intended Use, the stated Assumptions and Limiting Conditions, any Hypothetical Conditions and/or Extraordinary Assumptions, and the Type of Value, as defined herein. The appraiser, appraisal firm, and related parties assume no obligation, liability, or accountability, and will not be responsible for any unauthorized use of this report or its conclusions.

Additional Comments (Scope of Work, Extraordinary Assumptions, Hypothetical Conditions, etc.):

The appraiser was not provided a plat of survey or legal description for the subject site. All dimensions, site areas and other physical characteristics of the subject were obtained from WINGIS and are assumed to be correct as reported.
