Re: Phase I Environmental Site Assessment

Location: 2020 North Lincoln Park West, Unit CU2
Chicago, Illinois

Project #: 27971-0225

Dear Dan Shanley:

Following is the Phase I Environmental Site Assessment report (Report) conducted on the above referenced project location. This Report details the Findings and Conclusions of our evaluation.

As always, EPS Environmental Services, Inc. appreciates the opportunity to have provided our services and looks forward to serving your future needs. Should you have questions concerning this Report, or have further need of our services, please do not hesitate to call.

Sincerely,

Samuel T. Bodine
Senior Project Manager

Appendix E - EPS Environmental Qualifications

# 1.0 EXECUTIVE SUMMARY

EPS Environmental Services, Inc. (EPS Environmental) has performed a Phase I Environmental Site Assessment (Phase I Assessment) of unit CU2 (Subject Property unit) situated within a mixed-use (commercial/residential) condominium building located at 2020 North Lincoln Park West, City of Chicago, Cook County, Illinois (Subject Property) in conformance with the scope and limitations of the American Society for Testing and Materials (ASTM) Standard Practice for Environmental Site Assessments (Standard E 1527-21) and according to the standards and practices set forth in 40 Code of Federal Regulations (CFR) Part 312. Any exceptions to, or deletions from these practices are described in Section 2.3 of this report (Report).

| SUBJECT PROJECT DESCRIPTION | |
|---|---|
| Address | 2020 North Lincoln Park West, unit CU2, Chicago, Illinois |
| Common/Historic Addresses | 2000-2020 North Lincoln Park West; 2000-2022 North Clark Street; 300-316 West Armitage Avenue; and 2015-2021 North Orleans Avenue |
| Subject Property Use | Mixed-use (commercial/residential) |
| Land Size | ±52,300 square feet (sf) |
| Number of Structures | One (1) |
| Number of Stories | 39-story |
| Date(s) of Construction | Circa 1972 |
| Type of Construction | Concrete and steel with a full basement and below grade parking garage |
| Gross Building Area | ±416,715 sf Subject Property building; ±4,788 sf Subject Property unit |
| Current Assessor Parcel Number (APN) | 14-33-208-028-1002 |
| Subject Property Unit Current Tenant(s)/Operations | Unoccupied |
| Former Uses | Residential, commercial (former convenience stores) |
| Adjacent Land Use | Residential, commercial, recreational, institutional |
| Inspection Date | March 11, 2025 |
| Inspected By | Samuel T. Bodine and Ethan J. Burnett |

**This Phase I Assessment has identified no evidence of controlled recognized environmental conditions (CRECs), historical RECs (HRECs) or significant data gaps in connection with the Subject Property. However, this Phase I Assessment has identified evidence of the following recognized environmental condition (REC)[1] in connection with the Subject Property:**

- There is a potential for unknown/unreported releases (e.g., spills, overfills and/or leaks) of petroleum to have occurred from an abandoned-in-place 15,000-gallon fuel oil underground storage tank (UST) associated with the Subject Property and negatively impacted underlying soil/groundwater and/or present a vapor encroachment condition (VEC).

Refer to Sections 4.2, 4.3, 6.1, 6.7 and 7.0 for additional discussion regarding the aforementioned REC. In addition, business environmental risks (e.g., equipment containing regulated substances, suspect asbestos-containing material (ACM), etc.) associated with the current or planned uses of the Subject Property are individually discussed in various Sections of this Report.

## 2.0 INTRODUCTION

EPS Environmental was retained to conduct the Phase I Assessment of the Subject Property by Wintrust Financial Corporation (the Client).

### 2.1 Purpose

The purpose of the Phase I Assessment was to identify readily apparent, potential sources of environmental liabilities associated with the Subject Property and to qualify for landowner liability protection (LLP) under the Comprehensive Environmental Response Compensation and Liability Act (CERCLA) in conjunction with the user requirements as defined in 40 CFR Part 312.

### 2.2 Phase I Assessment Viability

According to ASTM E1527-21, this Phase I Assessment is presumed to be viable for 180 days after the earliest date of the following components:

| Assessment Component | Date |
|---|---|
| Environmental Database Governmental Records | March 4, 2025 |
| Interviews | March 11, 2025 |

[1]According to ASTM Standard E 1527-21, a recognized environmental condition (REC) means "the presence of *hazardous substances or petroleum products* in, on, or at the *Subject Property* due to a release to the environment, the likely presence of *hazardous substances or petroleum products*, in, on, or at the *Subject Property* due to a release or likely release to the environment or the presence of *hazardous substances or petroleum products* in, on, or at the *Subject Property* under the conditions that pose a material threat of a future release to the environment; a controlled recognized environmental condition (CREC) is defined as a *REC* affecting the *Subject Property* that has been addressed to the satisfaction of the applicable regulatory authority or authorities with *hazardous substances or petroleum products* allowed to remain in place subject to implementation of required controls; and a historical recognized environmental condition (HREC) means a previous *release of hazardous substances or petroleum products* affecting the *Subject Property* that has been addressed to the satisfaction of the applicable regulatory authority or authorities and meeting unrestricted use criteria established by the applicable regulatory authority or authorities without subjecting the *Subject Property* to any controls.

| Assessment Component | Date |
|---|---|
| Visual Inspection | March 11, 2025 |
| Declaration of Environmental Professional | March 21, 2025 |

Refer to Sections 4.2, 5.0, 6.0 and 8.4 for additional discussion.

### 2.3 Scope of Services

The scope of services agreed upon by the Client and performed by EPS Environmental is consistent with the recommendations set forth in the ASTM Standard E 1527-21 and according to the standards and practices set forth in 40 CFR Part 312. Moreover, potential environmental business risks are discussed in this Report, which include ACM, wetland vegetation, biological hazards/mold, lead-based paint, equipment containing hazardous or regulated substances and radon gas levels. Any data gaps and/or *de minimis* concerns identified on the Subject Property are discussed within the text of this Report. In order to qualify for one of the LLPs offered by the Small Business Liability Relief and Brownfields Revitalization Act of 2001, the user of this Report must conduct the inquiries which are included on the environmental questionnaire (refer to Section 4.3.8). It should be noted, the questionnaire can be completed independent of this Report.

The scope of services performed by EPS Environmental was set forth in the Proposal between the Client and EPS Environmental Services dated February 28, 2025 (Appendix A).

### 2.4 Limiting Conditions

The presence of stockpiled materials, parked motor vehicles, equipment, furnishings and various floor coverings limited observations in isolated areas of underlying interior surfaces in the Subject Property unit and observed common areas. The presence of parked motor vehicles, trash dumpsters and fencing limited observations in isolated areas of underlying exterior surfaces on the Subject Property. In addition, the presence of parked automobiles, dumpsters, fencing and vegetation limited observations in isolated areas of underlying surfaces on the adjacent sites as viewed from the Subject Property and public right-of-ways. As the inspection was limited to the Subject Property unit and common areas (lobby, commercial foyer, loading dock and portion of parking garage), the remaining condominium building/units were not part of the assessment; and therefore, not inspected. Furthermore, the north exterior wall abuts the adjacent structure, therefore observations along this wall were limited/restricted. EPS Environmental makes no guarantees as to existing conditions of underlying surfaces that could not be readily inspected.

Sampling and an all-inclusive survey for the presence of suspect ACM, lead-based paint and/or biological hazards/mold were beyond the scope of services for this Phase I Assessment. A visual inspection for readily observable suspect ACM, deteriorated paint and discolored/stained areas of potential mold growth was conducted; however, the removal of physical or visual barriers or inaccessible areas such as pipe chases, interiors of machinery/equipment and “dead spaces,” such as fully enclosed masonry vaults, was not conducted as part of this Phase I Assessment.

Any other limiting conditions pertaining to this Phase I Assessment are described in associated Sections of this Report.

## 3.0 SUBJECT PROPERTY DESCRIPTION

### 3.1 Location and Legal Description

The Subject Property consists of one (1) commercial condominium unit (unit CU2, the Subject Property unit), situated within a mixed-use (residential/commercial) condominium building (Subject Property building), located at the northwest corner of West Armitage Avenue and North Clark Street and on the east side of North Orleans Street, approximately ½-mile west of Lake Michigan and approximately ½-mile north of West North Avenue, in the City of Chicago, Cook County, Illinois. The Subject Property is situated in a mixed residential, institutional, recreational and commercial setting. See Figure 1 - Subject Property Location Map following the text of this Report. The legal description for the Subject Property is included in Appendix D, Historical Information.

### 3.2 Description of Improvements On-site

#### 3.2.1 Subject Property Size

The Subject Property consists of an irregular shaped parcel of land totaling approximately 52,300-square feet. See Figure 2 - Subject Property Sketch.

#### 3.2.2 Structure

The Subject Property is developed with a 39-story mixed-use (residential/commercial) building totaling approximately 416,715 square feet (Subject Property building). The Subject Property unit (Unit CU2) totals approximately 4,788 square feet.

*3.2.2.1 General Construction*

The 53± year old Subject Property building (circa 1972) is constructed of concrete and steel with a full basement and below grade parking garage. The Subject Property is divided into two (2) commercial units in the basement and 433 residential units on the upper floors.

*3.2.2.2 Interior Finishes*

Typically, the interior of the Subject Property unit consists of concrete floors; gypsum board, masonry, wood- and/or plastic-paneled walls; and gypsum board and/or concrete ceilings.

*3.2.2.3 Heating and Cooling Sources*

The Subject Property building is heated and cooled by natural gas fired boiler units, chiller units, natural gas-fired/electric-operated heating, ventilation and air-conditioning (HVAC) units and associated air handling equipment.

### 3.2.3 Remaining Grounds

The remaining grounds consist of asphalt-paved driveways, concrete-paved walkways, a pool deck and isolated areas of landscaping/vegetation. See Figure 2 - Subject Property Sketch and Appendix B - Photographic Documentation, following the text of this Report.

### 3.2.4 Potable Water Source

The City of Chicago supplies potable water from Lake Michigan to the Subject Property and surrounding area. The water is collected and treated by the City of Chicago Municipal Water Treatment Plant. According to the Water Department, the water is tested periodically for contaminants and is in compliance with current Environmental Protection Agency (EPA) Safe Drinking Water Act Regulations, unless a local drinking water advisory has been issued. It should be noted, regulatory determinations for contaminants currently not subject to primary drinking water regulations are anticipated to occur in public water systems. There were no groundwater monitoring or potable wells reported or observed on the Subject Property.

### 3.2.5 Wastewater/Stormwater Discharge

Wastewater and stormwater run-off within the City of Chicago discharge into a combined sewer system. The wastewater effluent is collected and treated by the Metropolitan Water Reclamation District of Greater Chicago (MWRDGC). Fats, oils and greases generated from kitchen operations reportedly discharge to a grease trap prior to discharging to the sanitary sewer system. There were no septic systems reported or observed on the Subject Property.

Stormwater run-off flows into stormwater sewers located along the adjacent right-of-ways. Refer to Section 6.4 for additional discussion.

## 3.3 Current and Past Uses of the Subject Property

### 3.3.1 Current Uses

The Subject Property unit is currently unoccupied. The remainder of the Subject Property building included an unoccupied commercial unit in the basement, a management office on the first floor and residential apartment units on the upper floors. No bulk quantities of hazardous materials and/or petroleum were observed in the Subject Property unit during the on-site reconnaissance. Based on site observations, the former general work and housekeeping practices appeared to be satisfactory.

3.3.2 Past Uses

According to the Subject Property representative, Sanborn Fire Insurance Maps, historical aerial photographs, city directory search and topographic maps reviewed, the Subject Property unit has been utilized for commercial purposes including convenience stores (White Hen Pantry and 7-Eleven) since current development. Historically, the Subject Property was utilized for residential and/or commercial purposes. Refer to Section 4.3 for additional discussion regarding historical uses of the Subject Property.

## 3.4 Current and Past Uses of Adjoining Sites

3.4.1 Current Uses

The Subject Property was surrounded as follows:

North: Multi-family dwelling, 2026 North Clark Street
Multi-family dwelling 2033 North Orleans Street
Mixed-use (residential/commercial), 2034 North Clark Street

South: Public alley
West Armitage Avenue
Lincoln Park Tower (multi-family dwelling), 1960 North Lincoln Park West
Park West (music venue), 322 West Armitage Avenue

East: North Clark Street
Lincoln Park/Lincoln Park Zoo

West: North Orleans Street
Public alley
Multi-family dwellings
Park West (music venue), 322 West Armitage Avenue

3.4.2 Past Uses

The surrounding sites have been utilized for recreational, residential, institutional and/or commercial purposes since development. Refer to Sections 4.2 and 4.3 for discussion regarding the historical uses of the adjacent sites.

## 4.0 RECORDS REVIEW

### 4.1 Physical Setting Sources

The following sources were reviewed to provide information on the topographic and geologic characteristics of the Subject Property and surrounding area. Additionally, a county radon study was reviewed to provide statistics on the Subject Property's potential radon risk.

#### 4.1.1 United States Geological Survey (USGS) 7.5 Minute Series Topographic Map

According to the Chicago Loop Quadrangle map, the general topography of the area displays an approximate five (5) foot decrease within ⅛-mile east of the Subject Property in the direction of Lake Michigan. See Figure 3 for a copy of the Topographic Map reviewed.

#### 4.1.2 Illinois State Geological Survey "Bedrock Geology of Illinois"

The Subject Property is located on the Dolton Member of the Equality Formation. These Pleistocene Age deposits consist of shallow water, near-shore lake sediments in beaches, bars, spits, and deltas; dominantly medium-grained sand; contains beds of silt where gradational to Carmi Member. Local lenses of sandy gravel may be present along ancient beaches.

#### 4.1.3 Illinois State Geological Survey Circular #532, "Potential for Contamination of Shallow Aquifers from Land Burial of Municipal Waste"

The Subject Property is located within the rating area B1. The rating denotes the capacities of earth material to accept, transmit, restrict or remove contaminants from waste effluent. In general, a B1 rating area contains sand and gravel less than 20 feet thick over relatively impermeable till or bedrock.

It should be noted, no documentation was provided or readily available regarding whether imported fill material was used on the Subject Property. As the nature and origin of the imported fill material, if any, is unknown, there is a potential for hazardous substances to be present in imported fill material underlying the Subject Property. Therefore, due to the lack of comprehensive documentation regarding the nature and origin of imported fill material, if any, and lack of environmental regulations prior to existing mandates, EPS Environmental cannot render an opinion regarding the condition of the imported fill material, or potential effects on the Subject Property's subsurface conditions.

Consequently, should future construction activities or subgrade utility work involve excavation and off-site disposal of imported fill material, the imported fill material may require waste characterization analysis to satisfy the criteria as "uncontaminated soil" in accordance with 35 Illinois Administrative Code Part 1100 to be disposed at a Clean Construction or Demolition Debris (CCDD) facility. As such, the imported fill material, if any, would be considered a business environmental risk (i.e., additional construction costs) in connection with the Subject Property.

4.1.4 Illinois Emergency Management Agency, "Status Report for Radon in Illinois"

The Subject Property is located in Cook County in which 11% of samples tested had radon levels greater than 4.0 picocuries per liter (pCi/L). The United States Environmental Protection Agency (USEPA) has set a remedial action level of 4.0 pCi/L for residences. An average level of 1.8 pCi/L was detected among the samples screened. This screening data is included as a guide to general background conditions and should not be construed as site-specific data.

## 4.2 Federal and State Environmental Record Sources

Federal and State databases were reviewed by Environmental Data Resources, Inc. (EDR) for recorded environmental concerns on the Subject Property and known sites within the Approximate Minimum Search Distance, as designated in the ASTM Standard E 1527-21. See Appendix C - Environmental Database Information, for a copy of the database report.

Subject Property

The Subject Property was identified on the Office of the Illinois State Fire Marshal (OSFM) registered Underground Storage Tank (UST) database with one (1) abandoned-in-place, 15,000-gallon heating oil UST under the facility name 2020 Lincoln Park West Condo Association, 2020 North Lincoln Park West. The Subject Property was not identified on the Illinois Environmental Protection Agency (IEPA) Leaking Underground Storage Tank (LUST) database with a reported release (e.g., spills, overfills and/or leaks). According to OSFM documentation reviewed, this UST was filled with inert materials in 1992. In addition, no confirmatory soil sampling was available or a description of the location of the UST. ***As there is a potential for unknown/unreported releases of petroleum to have occurred from the abandoned-in-place UST and negatively impacted underlying soil/groundwater and/or present a vapor encroachment condition (VEC), the abandoned-in-place UST presents a recognized environmental condition (REC) in connection with the Subject Property.*** Refer to Sections 4.3, 6.1, 6.7 and 7.0 for additional discussion.

Adjacent Sites

*East Adjacent Sites*

An east adjacent site was identified on the OFSM registered UST database with one (1) removed, 5,000-gallon heating oil UST under the facility name Lincoln Park Admin Building Cultural, 2045 Lincoln Park West. This site was not identified on the IEPA LUST database with a reported release. Based on the physical distance from the Subject Property (across North Clark Street, North Lincoln Park West), absence of a reported release and dense urban infrastructure in the area, the UST database listing and associated contamination, if any, should not present a readily apparent environmental concern to the Subject Property at this time. Additionally, this site was identified on the IEPA LUST database with a reported release of fuel oil in 1991 (incident #: 913129) under the facility name Chicago Park District, 2200 North Cannon Drive (related to separate UST). According to the LUST database, the incident was issued a No Further Remediation (NFR) letter

on September 3, 1996. The NFR letter signifies applicable regulatory requirements have been achieved, corrective actions have been completed, and no further remediation is necessary for the protection of human health and safety or the environment. Based on the physical distance from the Subject Property (across North Lincoln Park West), issuance of the NFR letter and dense urban infrastructure in the area, this site should not present a readily apparent environmental concern to the Subject Property.

This site was also identified on the Resource Conservation and Recovery Act (RCRA) database as a very small quantity generator of hazardous waste (ignitable waste, lead); and small quantity generator(ignitable waste, corrosive waste, spent non-halogenated solvents); on the Manifest database to track hazardous waste generated from a facility to an off-site waste management facility; and on the Facility Index System/Facility Registry (FINDS) database, likely due to the aforementioned database listings, under the facility names Lincoln Park Cultural Center, 2045 North Lincoln Park West and Lincoln Park Zoo, 2001 North Clark Street. No RCRA violations were identified on the database for this site. Moreover, no outside hazardous waste storage areas or signs of dumping of waste were observed on this site as viewed from the Subject Property and public right-of-ways during the site reconnaissance. Provided the hazardous waste was and continues to be properly managed, these database listings, in an of themselves, should not present a readily apparent environmental concern to the Subject Property.

Remaining Listed Sites

Based on the physical distances from the Subject Property the remaining listed sites identified within the designated search radii should not present a readily apparent environmental concern to the Subject Property.

Un-mappable Sites

Using the limited address/name recognition provided in the database report, coupled with off-site reconnaissance, it does not appear the un-mappable sites are located within ⅛-mile radius of the Subject Property. As such, based on the assumed distances of the un-mappable sites from the Subject Property, these sites should not present a readily apparent environmental concern to the Subject Property.

## 4.3 Historical Use Information

The following reasonably obtainable sources of information were reviewed or contacted to determine the historical uses of the Subject Property. When feasible, information pertaining to the adjacent sites was reviewed.

### 4.3.1 Sanborn Fire Insurance Maps (Sanborns) for the years 1910, 1935, 1950, 1974, 1988, 1990, 1994, 2002 and 2004 provided by EDR

The Sanborns were reviewed for keywords and/or symbols of environmental significance (e.g., filling stations, dry cleaners, tanks, etc.) for the Subject Property and nearby sites. The Sanborns depicted the Subject Property as follows:

| Year(s) | Subject Property Description |
|---|---|
| 1910-1935 | Mixed-use/storefronts including a saloon, flats (apartments), dwellings, a hotel (Hotel Luzerne) with an office, a drug store and coal house |
| 1950 | Mixed-use/storefronts, dwellings, flats, vacant city lot (one dwelling razed) |
| 1974-2004 | 39-story mixed-use structure (general current configuration) noted with commercial storefront(s), 507-residential units (Lincoln Park Terrace/Lincoln Park West), an "underground structure" and vacant city lot (location of pool) |

The Sanborns depicted the adjacent sites as follows:

| Year(s) | Subject Property Description |
|---|---|
| 1910 | **North**: flats<br>**South**: dwellings<br>**East**: noted as Lincoln Park and an institutional structure (Lincoln Park Chicago Academy of Sciences)<br>**West**: dwellings and flats |
| 1935-1950 | **North**: hotel and storefronts (Hotel Clayton)<br>**South**: movie theater, storefronts, flats and dwellings<br>**East**: Lincoln Park, and institutional/municipal structures (Chicago Academy of Sciences, Matthew Laflin Memorial Museum and Lincoln Park Police Department Headquarters)<br>**West**: flats, dwellings, storefronts and a movie theater |
| 1974-2004 | **North**: hotel<br>**South**: commercial storefront and multi-family dwelling (Lincoln Park Tower Apartments)<br>**East**: Lincoln Park and institutional structures (Chicago Academy of Sciences, Matthew Laflin Memorial Museum)<br>**West**: flats dwellings and a commercial storefront |

See Appendix D, Historical Information for a copy of the Sanborns reviewed.

4.3.2 Historical Building Permits, viewed at University of Illinois at Chicago (UIC) Library

A City of Chicago historical building permit was on file for the Subject Property (2004 North Clark Street) to install one (1) 3,000-gallon fuel oil tank dated August 25, 1952. Refer to Section 4.3.5 for additional discussion.

See Appendix D, Historical Information for a copy of the permits reviewed. It should be noted, due to poor imaging quality several of the historical building permits were illegible.

4.3.3 Building Permits, via FOIA Request to the City of Chicago Department of Buildings

According to the City of Chicago Department of Buildings, no permits of environmental significance were on file for the Subject Property. See Appendix D, Historical Information for a copy of the FOIA request and response.

4.3.4 Environmental Records, via Freedom of Information Act (FOIA) request to the City of Chicago Fire Department (CFD)

According to the City of Chicago Fire Department, records were on file for the Subject Property (2000 Lincoln Park West and 304-310 West Armitage Avenue) to install (permit # B260428) four (4) 280-gallon fuel oil USTs dated May 27, 1959; install (permit #: B307189) one (1) 10,000-gallon fuel oil UST dated November 21, 1961 and a license was applied for the storage of 10,000-gallons of fuel oil dated May 7, 1962. Based on the redevelopment of the Subject Property (presence of a full basement and subgrade parking structure) and natural degradation of petroleum, these USTs should not present a readily apparent environmental concern to the Subject Property.

In addition, a record was on file for the Subject Property to install (permit #: B446386) one (1) 15,000-gallon fuel oil UST dated June 11, 1971. Refer to Section 4.2, 6.1, 6.7 and 7.0 for additional discussion and see Appendix D, Historical Information for a copy of the FOIA request and response.

4.3.5 Environmental Records, via City of Chicago Department of Public Health (CDPH)

According to the CDPH, records were on file for the Subject Property (2004 North Clark Street and 304-310 West Armitage Avenue) to install one (1) 3,000-gallon fuel oil UST dated August 25, 1952 and to install four (4) 280-gallon fuel oil USTs dated May 27, 1959. Based on the redevelopment of the Subject Property (presence of a full basement and subgrade parking structure) and natural degradation of petroleum, these USTs should not present a readily apparent environmental concern to the Subject Property.

Records were also on file for the Subject Property (2000-2020 Lincoln Park West) for a complaint record for an improperly closed UST leaking vapors into the basement (potentially the Subject Property unit) and out to the street with a recommendation for formal closure issued March 4, 1997. It should be noted, this complaint was reported after the UST was abandoned-in-place. Furthermore, an air quality inspection was conducted June 25, 2009 of a former dry cleaning

facility in the Subject Property building noting the facility as a drop-off only location. Refer to Sections 4.2, 6.1, 6.7 and 7.0 for additional discussion of the UST associated with the Subject Property.

Records were on file for an east adjacent site (2045 North Lincoln Park Avenue and 2050-2300 North Cannon Drive) for an UST removal of one (1) 5,000-gallon heating oil UST which was noted to be previously abandoned and no evidence of a release dated September 10, 1999; to remove two (2) 20,000-gallon fuel oil USTs dated November 8, 1991, install two (2) 20,000-gallon fuel oil USTs dated November 26, 1991; install one (1) 50-gallon diesel fuel double-wall steel AST dated August 28, 2002; install one (1) 100-gallon diesel fuel day-tank issued March 18, 2004; and various UST audits (2000-2008) for one (1) 20,000-gallon fuel oil UST located at a power house. Refer to Section 4.2 for additional discussion.

A record was also on file for a northeast adjacent site (2059 North Clark Street) for an inspection of a dry cleaning facility, identified as a drop-off only facility dated June 11, 2009. Based on the physical distance from the Subject Property, the notation of this facility as a drop-off only dry cleaners, this record should not present a readily apparent environmental concern to the Subject Property. Refer to Section 4.3.9 for additional discussion and see Appendix D, Historical Information for a copy of the records reviewed. It should be noted, the permit data set was not available at the time of this Report; however, EPS Environmental opines this data gap is not material to the extent that would alter the Findings and Conclusions of the Report.

4.3.6 Zoning, via review of the City of Chicago Zoning Website (Zoning Map)

According to the Zoning Map, the Subject Property is zoned within Residential Multi-Unit (RM-6.5) District. See Appendix D, Historical Information for a copy of the Zoning Map reviewed.

4.3.7 Information Supplied by the Client/Subject Property Representative

The Client and/or Subject Property representative provided for review a *Plat of Survey* (Plat) prepared by Certified Survey Co. dated October 8, 1980; an *Environmental Records Search* (ERS report) prepared by ETS Environmental dated November 23, 2015; a *Records Search with Risk Assessment* (RSRA) prepared by EPS Environmental dated October 31, 2022; an *Asbestos Survey Report* (ACM report), an *ACM Invoice* prepared by Galaxy Environmental dated May 16, 2024 and June 7, 2024, respectively; and an *Asbestos Abatement Clearance Air Sampling Report* (ACM Clearance report) prepared by TEM Environmental dated June 28, 2024.

The ERS report included discussion of an environmental database review and *did not* include other historical resources or an on-site inspection. The ERS report noted the abandoned UST associated with the Subject Property and opined the Subject Property unit was at a low risk for environmental contamination.

According to the RSRA the Subject Property was at an *elevated* risk for contamination to be present due to the abandoned-in-place UST and historic permitted USTs associated with the Subject Property. Refer to Sections 4.2, 4.3.4, 6.1, 6.7 and 7.0 for additional discussion.

According to the ACM report, vinyl floor tiles, associated floor tile mastic and pipe insulation in the Subject Property unit was identified as asbestos containing. The ACM report recommended these asbestos materials be properly removed from the Subject Property unit. According to the ACM Clearance Report, only the vinyl tile and associated mastic was removed, and final air quality sampling released the Subject Property unit for normal use. According to the Subject Property representative, the pipe insulation is owned by Subject Property building and not part of the Subject Property unit; therefore, not removed. Refer to Section 6.8 for additional discussion and See Appendix D Historical Information for excerpts of the documents reviewed.

There were no additional environmental reports, site plans, maps or other documents relating to the Subject Property provided for review.

4.3.8 Environmental Liens and Activity & Use Limitations (AULs)

Neither the Client nor Subject Property representative provided EPS Environmental with information regarding environmental liens or litigation regarding environmental concerns on the Subject Property. In addition, an environmental lien search was conducted for the Subject Property unit via review of the available Cook County Recorder of Deeds website records (based on current APN); no environmental liens or AULs were recorded to the Subject Property Chain of Title.

Moreover, environmental questionnaires were completed by the Client and Subject Property representative regarding liens, AULs and for environmental documents that may have aided in the preparation of this Report. One of the completed environmental questionnaires identified asbestos containing floor tile abatement did not identify issues of environmental significance associated with the Subject Property. Refer to Section 4.3.7 and 6.8 for additional discussion and see Appendix D, Historical Information for a copy of the lien search results and completed questionnaires.

4.3.8 Historical Aerial Photographs (Aerials) for the years 1938, 1952, 1962, 1970, 1975, 1980, 1985, 1990, 1995, 2000, 2005, 2010, 2015, 2020 and 2024 obtained from the ISGS, USGS and/or the Northeastern Illinois Planning Commission (NIPC)

The Aerials were reviewed for environmentally significant features, such as disturbed upper soil layers, dumping, aboveground storage tanks (ASTs), etc. for the Subject Property and adjacent sites. The Aerials depicted the Subject Property as follows:

| Year(s) | Subject Property Description |
|---|---|
| 1938-1970 | Several commercial and/or residential type structures |
| 1975-2024 | Currently identified mixed-use (residential/commercial) type structure |

In general, the surrounding sites were depicted as a park and/or developed with residential, institutional and/or commercial structures on the Aerials reviewed.

There was no evidence of significant disturbance of upper soil layers or signs of open dumping on the Subject Property or immediate adjacent sites on the Aerials reviewed. See Appendix D, Historical Information for a copy of the Aerials reviewed.

4.3.9 Historical City Telephone Directories ordered from EDR

Historical city telephone directories/abstracts were reviewed for the Subject Property (1923-2020). The city directory search utilizes business and telephone directories to list individuals and/or companies associated with a specific address. Listings for the Subject Property unit the following:

| Occupant | Year(s) |
|---|---|
| White Hen Pantry | 1976-2010 |

Listings for the Subject Property included numerous residential/commercial units and the following:

| Occupant | Year(s) |
|---|---|
| Clark Harry Winter, clothes cleaner | 1923 |
| Clark Cleaners & Tailors | 1941 |
| Luzerne Hand Laundry | 1941-1947 |

Based on the limited tenure and redevelopment of the Subject Property, these listings should not present a readily apparent environmental concern to the Subject Property.

Listings for a west adjacent site (324 West Armitage Avenue) included Lane Court Cleaners & Dyers (1941). Based on the physical distance from the Subject Property (across public alley), limited size of the storefront (based on Sanborn), likely limited tenure and dense urban infrastructure in the area, this listing, in and of itself should not present a readily apparent environmental concern to the Subject Property.

In addition, listings for a northeast adjacent site (2048 North Lincoln Park West and 2059 North Clark Street) included Michael's Cleaners (1931, 1992-2017) and Martinizing Dry Cleaning (2020). Refer to Section 4.3.5 for additional discussion and see Appendix D, Historical Information for a copy of the city directory search reviewed.

4.3.10 Topographical Maps for the years 1900, 1929, 1953, 1963 and 1993 obtained from the USGS

Historical topographic maps were reviewed for the Subject Property. In general, the Subject Property was depicted as follows:

| Year(s) | Comments |
|---|---|
| 1900 | No structures |
| 1929 | Several commercial and/or residential type structures |
| 1953-1993 | Shaded indicating urban development |

In general, the topography of the Subject Property does not appear to have been extremely altered and appears basically unchanged as depicted on the historical topographic maps reviewed. See Appendix D, Historical Information for a copy of the maps reviewed.

Based on information provided by the Subject Property representative, Sanborns, Aerials, city directory search and topographic maps reviewed, it appears the Subject Property has been utilized for residential and/or commercial purposes since development. Historical documentation was not practically reviewable prior to development of the Subject Property. However, EPS Environmental opines no additional historical sources are required to be reviewed.

## 5.0 INTERVIEWS

The following individual was interviewed and accompanied by EPS Environmental for specialized knowledge concerning the Subject Property. The relevant information provided by this individual has been incorporated in the appropriate Sections of this Report.

| Subject Property Representative | Title/Relation to Subject Property | Years Associated with Subject Property |
|---|---|---|
| Craig Nelson | Property unit owner | ±10 |

It should be noted, the former Subject Property owner(s)' contact information was not provided or readily ascertainable to EPS Environmental; therefore, the former Subject Property owner(s) was not interviewed. However, EPS Environmental opines this data gap is not material to the extent that would alter the Findings and Conclusions of this Report.

## 6.0 SITE RECONNAISSANCE

The site reconnaissance was conducted on March 11, 2025 at approximately 11:00 a.m. by Samuel T. Bodine, Senior Project Manager, and Ethan J. Burnett, Project Manager, for EPS Environmental (Appendix E). The site reconnaissance was initiated by observing the Subject Property and adjacent sites from public thoroughfares, continued by inspecting the interior of the Subject Property unit and accessible common areas and concluded by walking the Subject Property boundaries. Photographic documentation of significant environmental features has been included as Appendix B.

The weather conditions were mostly cloudy with a temperature of approximately 45 degrees Fahrenheit and winds of approximately 28 miles per hour (mph) with wind gusts of up to 38 mph from the north northeast. The ground surfaces were dry.

### 6.1 Underground Storage Tanks (USTs)

A vent pipe, equipment typically associated with USTs, was observed exiting the north exterior wall of the Subject Property building likely associated with mechanical equipment. In addition, a fill pipe

was observed along the north Subject Property border which may be associated with the abandoned heating oil UST. Refer to Sections 4.2, 4.3, 6.7 and 7.0 for additional discussion. There was no additional equipment typically associated with USTs observed on the Subject Property.

### 6.2 Aboveground Storage Tanks (ASTs)/Storage Drums/Containers

There were no unidentified containers, ASTs or storage drums observed in the Subject Property unit.

### 6.3 Stained or Disturbed Surfaces/Stressed Vegetation

There were no signs of stained areas or disturbed surfaces observed in the Subject Property unit. With the exception of seasonal winter dormancy, no unusually stressed vegetation was observed on the Subject Property.

### 6.4 Stormwater Run-off/Standing Water/Wetlands/Sumps/Pits/Ponds/Lagoons

Stormwater runoff flows into stormwater sewers located in the driveway areas and/or along the adjacent right-of-ways. There were no petroleum sheens observed or unusual odors noted emanating from the sewers. In addition, there were no areas of standing water (e.g., pools of liquid, pits, ponds, lagoons) or suspect wetland vegetation observed on the Subject Property.

### 6.5 Waste Disposal Practices

The solid waste generated from the Subject Property unit is collected for off-site disposal by Republic Industries as evidenced by labeled dumpsters. There were no hazardous or special waste streams reported or identified being generated from the Subject Property unit.

### 6.6 Polychlorinated Biphenyls (PCBs)

Pole-mounted electrical transformers were observed along the west Subject Property border. The equipment was not observed to contain PCBs warning stickers. A warning sticker is required by federal regulations for equipment containing between 50 and 500 parts per million (ppm) PCBs or greater. ComEd, as the owner of the equipment, is responsible for keeping the equipment in compliance with federal, state and local regulations and the cleanup of contamination resulting from leaking equipment, as necessary.

Potential PCBs containing fluids may exist in the ballasts of the older fluorescent light fixtures observed within the Subject Property unit. There were no signs of leakage observed on the fixtures. Should future plans involve the repair, removal or disposal of the fixtures, proper procedures and precautions should be followed regarding the ballasts.

## 6.7 Air Quality/Emissions

With the exception of a slight musty odor, there were no unusual odors noticed in the Subject Property unit or emanating from the Subject Property at the time of inspection. Other than the Subject Property building's heating sources, the Subject Property was not identified to have other sources typically associated with point source air emissions.

This Phase I Assessment has identified the Subject Property as managing bulk quantities of petroleum. As there is a potential for an unknown release petroleum to have occurred into the ground; there is a potential for a vapor encroachment condition (VEC)[2] to impact the Subject Property. To categorically determine whether VEC presents a REC in connection with the Subject Property, Tier 2 vapor intrusion screening would be necessary. Refer to Section 7.0 for additional discussion.

## 6.8 Readily Observable Suspect Asbestos-Containing Material (ACM)

ACM had been used extensively in the construction of buildings prior to 1980. According to the USEPA, ACM is commonly found in three forms: (1) sprayed or troweled-on ceilings and walls (surfacing materials), including structural fireproofing; (2) in insulation on pipes, ducts, boilers, tanks or mechanical equipment [thermal system insulation (TSI)]; and (3) in "miscellaneous materials," such as, floor tiles, roofing felts and shingles, or wall boards. ACM is of greatest potential concern when it is friable, particularly if it is damaged or deteriorated. Friable, by definition, refers to a material that, when dry, can be crumbled, pulverized, or reduced to powder by hand pressure. Friable ACM is more likely than non-friable ACM to release fibers when disturbed or damaged. Airborne asbestos fibers can pose a potential respiratory health risk to building occupants who are exposed.

Though an asbestos survey and sampling were not a part of this Phase I Assessment, the Subject Property unit and common areas were inspected for the presence and condition of readily observable suspect ACM.

The following chart summarizes suspect ACM to include, but is not limited to:

| HOMOGENEOUS MATERIAL | LOCATION | CONDITION | FRIABLE | NON-FRIABLE |
|---|---|---|---|---|
| Wallboard system | Throughout unit | Good | | X |
| Spray on fireproofing | Loading dock | Good | X | |
| Thermal system insulation (TSI) pipe insulation* | Ceiling above unit | Good | X | |
| Roofing materials | Roof | Not observed | | X |

*Confirmed to be asbestos containing during the 2024 ACM report

[2] "The presence or likely presence of chemicals of concern vapors in the vadose zone of the Subject Property caused by the release of vapors from contaminated soil and/or groundwater either on or near the Subject Property identified by Tier 1 or Tier 2 procedures."

Based on the condition, location and potential for damage, EPS Environmental opines the ACM and suspect ACM can be managed in-place by implementing a site-specific Operations & Maintenance (O&M) program. If future renovation activities are planned, an asbestos survey should be conducted by an accredited inspector to include those areas of the buildings, which were previously inaccessible due to physical barriers (requiring a considerable amount of disassemble). Subsequently, any damaged ACM and/or ACM in the affected areas should be repaired, encapsulated and/or removed as necessary by a professional asbestos abatement firm following all applicable regulations prior to any activities that have the potential to disturb ACM.

### 6.9 Potential Lead-Based Paint

The painted surfaces observed throughout the Subject Property unit appeared to be in overall good condition. Based on the age of the Subject Property building, the paint may contain lead above regulatory limits. Lead is a known hazard that results in deterioration of the central nervous system when ingested or absorbed by humans. Therefore, the painted surfaces should be maintained. As significant lead exposure can arise from removal, repair, renovation, or demolition of the painted surfaces, testing is recommended to determine lead content prior to such planned renovation activity. If the painted surfaces are confirmed to contain lead above regulatory limits, professional abatement activities should be exercised in a manner that will not endanger the health or safety of workers and/or building occupants. Proper disposal of flakes, chips, dust or other lead-bearing debris, if any, resulting from the work should also be exercised.

### 6.10 Miscellaneous Equipment

Air-conditioning and chiller units were present on the Subject Property and refrigeration/freezer units were located in the Subject Property unit. This equipment may contain chlorofluorocarbon (CFC) refrigerant. CFC is a federally regulated substance that is known to contribute to ozone depletion within the atmosphere. In the event the equipment is repaired or removed from the premises, the CFC, if present, should be recovered.

The fluorescent bulbs and thermostats observed in the Subject Property unit may contain mercury and are classified as universal waste under Title 40 CFR Part 273, titled *Standards for Universal Waste Management*. Should future plans involve the repair, removal or disposal of the fixtures or elevator switches, proper procedures, precautions and proper disposal should be followed regarding the bulbs and thermostats.

### 6.11 Biological Hazards/Mold

Dark staining, suspect mold growth, was observed on the gypsum board in isolated areas of the Subject Property unit. No additional visual or olfactory evidence of potential microbiological hazards (e.g., mold growth) was observed in the remainder of the Subject Property unit.

## 6.12 Emerging Contaminants

As defined in Section 3.2.36 of the current ASTM Standard E1527, hazardous substance means "those substances defined as a hazardous substance pursuant to CERCLA 42 USC §9601(14), as interpreted by EPA regulations. Per- and polyfluoroalkyl substances (PFAS) are synthetically made chemical compounds which are widely used in industrial processes and consumer products (e.g., food containers, cookware, cleaning products, firefighting foams, repellents). PFAS are transported through air emissions, which then get deposited onto the surface and leach into soil and groundwater and/or get transported offsite as solid waste and are disposed of in landfills. Two common PFAS are perfluorooctane sulfonate (PFOS) and perfluorooctanoic acid (PFOA).

As there has been no documentation indicating PFAS were utilized on the Subject Property, and based on the lack of reported releases, evidence has not been identified to indicate the potential presence of significant concentrations of PFAS on the Subject Property.

Given the evolving nature of science and regulatory oversight of PFAS, additional sources of PFAS contamination and/or emerging contaminants which are not identified as a hazardous substance by CERCLA may exist.

## 6.13 Observations of Surrounding Sites

There were no recognizable environmental concerns visually identified on the immediate surrounding sites as observed from the Subject Property and public right-of-ways.

## 7.0 FINDINGS AND CONCLUSIONS

EPS Environmental Services, Inc. has performed a Phase I Environmental Site Assessment in conformance with the scope and limitations of ASTM Standard E 1527-21 and according to the standards and practices set forth in 40 CFR Part 312 for the Subject Property. Any exceptions to, or deletions from these practices are described in Section 2.3 of this Report.

**This Phase I Assessment has identified no evidence of controlled recognized environmental conditions (CRECs), historical RECs (HRECs), or significant data gaps in connection with the Subject Property. However, this Phase I Assessment has identified evidence of the following recognized environmental condition (REC)[1] in connection with the Subject Property:**

Suspect Underground Storage Tanks (USTs) Associated with the Subject Property

The Subject Property was identified on the Office of the Illinois State Fire Marshal (OSFM) registered Underground Storage Tank (UST) database with one (1) abandoned-in-place, 15,000-gallon heating oil UST under the facility name 2020 Lincoln Park West Condo Association, 2020 North Lincoln Park West. The Subject Property was not identified on the Illinois Environmental Protection Agency (IEPA) Leaking Underground Storage Tank (LUST) database with a reported release (e.g., spills, overfills and/or leaks). According to OSFM documentation reviewed, this UST was reportedly filled with inert materials in 1992. No confirmatory soil sampling data or a description of the location of the UST was available. However, a fill pipe, equipment typically associated with USTs, was observed along the north Subject Property border which may be associated with the abandoned heating oil UST.

During historical review, a City of Chicago Fire Department record was on file for the Subject Property (2000 Lincoln Park West) to install one (1) 15,000-gallon fuel oil UST dated June 11, 1971. In addition, a CDPH record was on file for the Subject Property (2000-2020 Lincoln Park West) for an improperly closed UST leaking vapors into the basement (potentially the Subject Property unit) and out to the street with a recommendation for formal closure issued March 4, 1997. It should be noted, this complaint was reported after the UST was abandoned-in-place. ***As there is a potential for unknown/unreported releases of petroleum to have occurred from the abandoned-in-place UST and negatively impacted underlying soil/groundwater and/or present a vapor encroachment condition (VEC), the abandoned-in-place UST presents a REC in connection with the Subject Property.***

[1]According to ASTM Standard E 1527-21, a recognized environmental condition (REC) means "the presence of *hazardous substances or petroleum products* in, on, or at the *Subject Property* due to a release to the environment, the likely presence of *hazardous substances or petroleum products*, in, on, or at the *Subject Property* due to a release or likely release to the environment or the presence of *hazardous substances or petroleum products* in, on, or at the *Subject Property* under the conditions that pose a material threat of a future release to the environment; a controlled recognized environmental condition (CREC) is defined as a *REC* affecting the *Subject Property* that has been addressed to the satisfaction of the applicable regulatory authority or authorities with *hazardous substances or petroleum products* allowed to remain in place subject to implementation of required controls; and a historical recognized environmental condition (HREC) means a previous *release of hazardous substances or petroleum products* affecting the *Subject Property* that has been addressed to the satisfaction of the applicable regulatory authority or authorities and meeting unrestricted use criteria established by the applicable regulatory authority or authorities without subjecting the *Subject Property* to any controls.

**To determine whether releases of petroleum occurred from the abandoned-in-place UST and negatively impacted underlying soil/groundwater and/or presents a VEC, a limited subsurface investigation would be necessary.**

## 8.0 WARRANTY AND LIMITATIONS OF LIABILITY

The Phase I Assessment and this Report are of limited scope, and do not provide sufficient information to eliminate the total risk of the presence of contamination or other liabilities. Significantly higher levels of exploratory efforts than those performed in this Phase I Assessment are required to accumulate sufficient information to determine all environmental liabilities associated with the Subject Property. Subsurface investigations and testing were beyond the scope of this Phase I Assessment.

EPS Environmental warrants that the Phase I Assessment has been conducted in accordance with generally accepted investigatory methods utilized by professional environmental consultants and includes the recommended practices for the "Phase I Environmental Site Assessment Process" contained in the ASTM Standard E 1527-21. EPS Environmental further warrants that the Findings and Conclusions in this Report are based exclusively on the Phase I Assessment. The investigatory methods that EPS Environmental utilized in the Phase I Assessment have been developed to provide the Client with information regarding apparent indications of existing or potential environmental conditions relating to the Subject Property and are limited to the conditions that were observed at the time of the investigation of the Subject Property. The Findings and Conclusions contained in this Report are also limited to the information available on the Subject Property at the time that the Phase I Assessment was conducted. There is a distinct possibility that conditions may exist at the Subject Property, which were not apparent during the preparation of the Phase I Assessment. In conducting the Phase I Assessment and preparing the Report, EPS Environmental relied on the information obtained from Subject Property owner/operators or other persons, and government agencies having knowledge of operations and practices of the Subject Property. EPS Environmental has assumed that this information is accurate and complete, except when independent investigation has indicated otherwise.

The Phase I Assessment did not attempt to determine whether the facilities operating on the Subject Property are in compliance with existing environmental regulations. This Report discusses and summarizes areas of potential environmental concern for the Subject Property itself. This Report provides no other warranties, expressed or implied.

### 8.1 Confidentiality

EPS Environmental will hold the Report and all field observations and related documents in strict confidence and will not disclose these items except to the Client or except as ordered by any state or federal agency or court of law. In the event that EPS Environmental is ordered by a state or federal agency or court of law to disclose the contents of the Report or field observations, the Client shall hold EPS Environmental harmless from liability for any damages that the Client may suffer due to EPS Environmental's disclosure. In addition, the Client shall indemnify EPS

Environmental from any and all damages EPS Environmental may suffer due to any action, which results in an order that EPS Environmental make a disclosure.

### 8.2 Reliance on Phase I Assessment and Report

The Phase I Assessment has been conducted, and this Report has been prepared, exclusively for the Client and it is intended that only the Client will rely on the Phase I Assessment and Report. The Phase I Assessment and Report will be solely for the benefit of the Client and may not be relied upon by other parties.

### 8.3 Sources of Information Relied Upon for Phase I Assessment and Report

All information that EPS Environmental has relied on in conducting the Phase I Assessment and preparing the Report, not specifically identified as generated by EPS Environmental or any federal, state, or local agency, has been supplied by or derived from data provided by the Client and Subject Property representative.

### 8.4 Certification

We, Samuel T. Bodine and Ethan J. Burnett, declare that, to the best of our professional knowledge and belief, we meet the definition of Environmental Professional as defined in 40 CFR Part 312. We have the specific qualifications based on education, training, and/or experience to assess a property of this nature, history, and setting similar to the Subject Property. We have developed and performed all appropriate inquiries in conformance with the standards and practices set forth in 40 CFR Part 312.

To the best of any information and belief, the facts stated in the Report are true and are made under a penalty of perjury as defined in Section 32-2 of the Criminal Code of 1961 [720 ILCS 5/32-2]. It is perjury for any person to sign an audit report that contains a false material statement that the person does not believe to be true.

Rosemont, Illinois 60018

Re: Phase I Environmental Site Assessment
Project #: 27971-0225
2020 Lincoln Park West Unit CU2
Chicago, Illinois

Dear Dan Shanley:

The purpose of the Phase I Assessment is to identify readily apparent, potential sources of environmental liabilities associated with the Subject Property and/or to qualify for the landowner liability protections to Comprehensive Environmental Response Compensation and Liability Act (CERCLA) liability in conjunction with the user requirements as defined in 40 Code of Federal Regulations (CFR) Part 312, AAI (All Appropriate Inquiry) based exclusively upon the scope of services set forth and agreed upon.

The scope of services to be performed by EPS Environmental Services, Inc. (EPS Environmental), in order to identify areas of environmental concern, will be consistent with the recommended practices set forth in the "Phase I Environmental Site Assessment Process" contained in the American Society for Testing and Materials (ASTM), Standard E 1527-21, and in accordance with the standards and practices set forth in 40 CFR Part 312 including business environmental risks.

In order to proceed, please sign the "Acceptance" page of the enclosed proposal. **EPS Environmental will commence work upon receipt of the executed proposal via facsimile or email.**

We request you provide a copy of the Plat of Survey or a site plan to assist in defining the Subject Property along with the property index number(s) (PIN).

Schedule: The scope of services will be completed *within fifteen (15) business days* from the commencement date, provided access is granted in a timely manner. A link to the Phase I Report will be emailed to the Client within this time frame; a hard copy will be mailed upon request only.

Sincerely,

Samuel T. Bodine
Senior Project Manager

# PHASE I ENVIRONMENTAL SITE ASSESSMENT PROPOSAL

## ACCEPTANCE

Please indicate acceptance of this Proposal by returning a signed copy of this Proposal or a purchase order incorporating the terms of this Proposal. Once accepted by the Client, the terms of this Proposal will represent the entire and integrated agreement between the Client and EPS Environmental, and will supersede all prior negotiations, representations or agreements, either written or verbal. This Proposal may be amended only in writing signed by both Client and an authorized representative of EPS Environmental.

Respectfully submitted,

EPS ENVIRONMENTAL SERVICES, INC.

## SITE CONTACT INFORMATION (to arrange for access to conduct the inspection):

It is the understanding that the following individual is either the owner of the Subject Property or an agent of the owner with power to grant right of entry thereon and will allow any employees or agents of EPS Environmental to enter upon the Subject Property to provide the services previously stated.

Name: Unknown

Phone: Unknown

Email: cnelson94@gmail.com

**Project #: 27971-0225**

Docusign Envelope ID: 9CE1833F-B090-4D7D-8C8A-5AACEEFE2A6F

**WARRANTY AND LIMITATION OF LIABILITY**

The Phase I Assessment will be of limited scope, and will not provide sufficient information to eliminate the total risk of the presence of contamination or other liabilities. Significantly higher levels of exploratory efforts than those performed in the proposed Phase I Assessment are required to accumulate sufficient information to determine all environmental liabilities associated with the Subject Property.

EPS Environmental warrants that the Phase I Assessment will be conducted in accordance with generally accepted investigatory methods utilized by professional environmental consultants and will include the recommended practices for the "Phase I Environmental Site Assessment Process" contained in the ASTM Standard Practice E 1527-21 and in accordance with the standards and practices set forth in 40 Code of Federal Regulations Part 312. EPS Environmental further warrants that the Findings and Conclusions in the Report will be based exclusively on the Phase I Assessment. The investigatory methods that EPS Environmental will utilize in the Phase I Assessment have been developed to provide the Client with information regarding apparent indications of existing or potential environmental conditions relating to the Subject Property and are limited to the conditions that will be observed at the time of the investigation of the Subject Property. The Findings and Conclusions contained in the Report will also be limited to the information available on the Subject Property at the time that the Phase I Assessment is conducted. There is a distinct possibility that conditions may exist at the Subject Property which will not be apparent during the preparation of the Phase I Assessment.

The Phase I Assessment will not attempt to determine whether the facility operating on the Subject Property is in compliance with existing regulations. The Report will discuss and summarize areas of environmental concern for the Subject Property itself. The Report will provide no other warranties, expressed or implied.

It should be noted, the Client is responsible to provide contact information for the former Subject Property owner and to conduct an environmental lien search (which can be obtained by EPS Environmental, for an additional fee per PIN, if requested by the Client) to qualify for landowner liability protections under 40 Code of Federal Regulations Part 312. It should be noted, the Client is responsible to provide the completed questionnaire to qualify for landowner liability protections under 40 Code of Federal Regulations Part 312.

Any claim pursuant to this contract must be in writing and received by EPS Environmental within one (1) year of the completion of the services or such claims shall be deemed waived.

**CONFIDENTIALITY**

EPS Environmental will hold the Report and all field observations and related documents in strict confidence and will not disclose these items except to the Client or except as ordered by any state or federal agency or court of law. In the event that EPS Environmental is ordered by a state or federal agency or court of law to disclose the contents of the Report or field observations, the Client shall hold EPS Environmental harmless from liability for any damages that the Client may suffer due to EPS Environmental's disclosure. In addition, the Client shall indemnify EPS Environmental from any and all damages EPS Environmental may suffer due to any action which results in an order that EPS Environmental make a disclosure.

**RELIANCE ON PHASE I ASSESSMENT AND REPORT**

The Phase I Assessment and Report will be conducted exclusively for the Client and it is intended that only the Client will rely on the Report. The Phase I Assessment and Report will be solely for the benefit of the Client and may not be relied upon by third parties.

**SOURCES OF INFORMATION RELIED UPON FOR PHASE I ASSESSMENT AND REPORT**

In conducting the Phase I Assessment and preparing the Report, EPS Environmental will rely on the information obtained from Subject Property owner/operators or other persons, and government agencies having knowledge of operations and practices of the Subject Property. EPS Environmental will assume that this information is accurate and complete, except when independent investigation indicates otherwise and will rely on the validity, accuracy and completeness of data, documentation and information.

**COMPENSATION**

In the event that significant discrepancies to the provided description of the Subject Property are discovered, EPS Environmental shall notify Client of such discrepancies in writing and shall reserve the option to re-negotiate an appropriate fee. The prices quoted herein will be honored for 30 days from the date of this Proposal.

The scope of work as detailed in this Proposal shall include providing the Client with one (1) electronic copy of the final Phase I Assessment Report, and one (1) hour of Client consultation to discuss the findings and conclusions of the Report. One (1) original copy of the Phase I Assessment will be sent to the Client upon request only.

EPS Environmental reserves the option to seek further compensation for supplementary services such as: re-addressing the Report for a third party's reliance; additional copies of the Report; consultation in excess of one (1) hour; and additional services considered outside the proposed scope of the Phase I Assessment work. Additional consultation, in excess of one hour, will be billed to the Client. In addition, EPS Environmental will be compensated, by the Client, for costs incurred obtaining information from local, state or federal agencies. EPS Environmental will notify the Client prior to obtaining any such information. In the event of unpaid balances after thirty (30) days, the Client shall be assessed an interest charge at the rate of one and one-half (1½) percent per month (18% annual rate).

In the event that the Client fails to pay EPS Environmental for services rendered pursuant to this Proposal, the Client agrees to pay any and all reasonable legal fees and other related expenses incurred by EPS Environmental in collecting its compensation for those services from the Client. In the event that the Client cancels, postpones, alters or otherwise changes the scope of services provided by EPS Environmental pursuant to this Proposal, the Client shall compensate EPS Environmental for any and all additional time and expenses that EPS Environmental may incur due to the Client's changes. In the event of any such change the Client shall forfeit all amounts deposited with EPS Environmental.

**SURROUNDING SITES: SEARCH RESULTS**

Surrounding sites were identified in the following databases.

Elevations have been determined from the USGS Digital Elevation Model and should be evaluated on a relative (not an absolute) basis. Relative elevation information between sites of close proximity should be field verified. Sites with an elevation equal to or higher than the target property have been differentiated below from sites with an elevation lower than the target property.
Page numbers and map identification numbers refer to the EDR Radius Map report where detailed data on individual sites can be reviewed.

Sites listed in ***bold italics*** are in multiple databases.

Unmappable (orphan) sites are not considered in the foregoing analysis.

# EXECUTIVE SUMMARY

**STANDARD ENVIRONMENTAL RECORDS**

***Lists of Federal RCRA facilities undergoing Corrective Action***

CORRACTS: CORRACTS is a list of handlers with RCRA Corrective Action Activity. This report shows which nationally-defined corrective action core events have occurred for every handler that has had corrective action activity.

A review of the CORRACTS list, as provided by EDR, and dated 09/16/2024 has revealed that there is 1 CORRACTS site within approximately 1 mile of the target property.

| Lower Elevation | Address | Direction / Distance | Map ID | Page |
|---|---|---|---|---|
| ***TRUE VALUE MFG CO*** EPA ID:: ILD074401530 | ***823 W BLACKHAWK AVE*** | ***SW 1/2 - 1 (0.913 mi.)*** | ***106*** | ***212*** |

***Lists of Federal RCRA generators***

RCRA-SQG: RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Small quantity generators (SQGs) generate between 100 kg and 1,000 kg of hazardous waste per month.

A review of the RCRA-SQG list, as provided by EDR, and dated 09/16/2024 has revealed that there is 1 RCRA-SQG site within approximately 0.25 miles of the target property.

| Lower Elevation | Address | Direction / Distance | Map ID | Page |
|---|---|---|---|---|
| ***LINCOLN PARK ZOO*** EPA ID:: ILR000119040 | ***2001 N CLARK ST*** | ***ESE 1/8 - 1/4 (0.219 mi.)*** | ***85*** | ***165*** |

RCRA-VSQG: RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Very small quantity generators (VSQGs) generate less than 100 kg of hazardous waste, or less than 1 kg of acutely hazardous waste per month.

A review of the RCRA-VSQG list, as provided by EDR, and dated 09/16/2024 has revealed that there is 1 RCRA-VSQG site within approximately 0.25 miles of the target property.

**ADDITIONAL ENVIRONMENTAL RECORDS**

***Local Lists of Registered Storage Tanks***

IL TANKS: This dataset contains Aboveground Storage Tank (AST) and Underground Storage Tank (UST) information from the Department of Public Healtha??s (CDPH) Tank Asset Database. The Tank Asset Database contains tank information from CDPH AST and UST permit applications as well as UST records imported from the historic Department of Environment (DOE) database. This dataset also includes AST records from the historic DOE and pre-1992 UST records from the Building Department.

A review of the IL TANKS list, as provided by EDR, and dated 08/21/2024 has revealed that there are 42 IL TANKS sites within approximately 0.25 miles of the target property.

RCRA NonGen / NLR: RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Non-Generators do not presently generate hazardous waste.

A review of the RCRA NonGen / NLR list, as provided by EDR, and dated 09/16/2024 has revealed that there are 7 RCRA NonGen / NLR sites within approximately 0.25 miles of the target property.

UST FINDER RELEASE: US EPA's UST Finder data is a national composite of leaking underground storage tanks. This data contains information about, and locations of, leaking underground storage tanks. Data was collected from state sources and standardized into a national profile by EPA's Office of Underground Storage Tanks, Office of Research and Development, and the Association of State and Territorial Solid Waste Management Officials.

A review of the UST FINDER RELEASE list, as provided by EDR, and dated 06/08/2023 has revealed that there are 6 UST FINDER RELEASE sites within approximately 0.5 miles of the target property.

UST FINDER: EPA developed UST Finder, a web map application containing a comprehensive, state-sourced national map of underground storage tank (UST) and leaking UST (LUST) data. It provides the attributes and locations of active and closed USTs, UST facilities, and LUST sites from states and from Tribal lands and US territories . UST Finder contains information about proximity of UST facilities and LUST sites to: surface and groundwater public drinking water protection areas; estimated number of private domestic wells and number of people living nearby; and flooding and wildfires.

A review of the UST FINDER list, as provided by EDR, and dated 06/08/2023 has revealed that there are 2 UST FINDER sites within approximately 0.25 miles of the target property.

E MANIFEST: EPA established a national system for tracking hazardous waste shipments electronically. This system, known as ?e-Manifest,? will modernize the nation?s cradle-to-grave hazardous waste tracking process while saving valuable time, resources, and dollars for industry and states.

A review of the E MANIFEST list, as provided by EDR, and dated 09/16/2024 has revealed that there are 5 E MANIFEST sites within approximately 0.25 miles of the target property.

**EDR HIGH RISK HISTORICAL RECORDS**

***EDR Exclusive Records***

EDR MGP: The EDR Proprietary Manufactured Gas Plant Database includes records of coal gas plants (manufactured gas plants) compiled by EDR's researchers. Manufactured gas sites were used in the United States from the 1800's to 1950's to produce a gas that could be distributed and used as fuel. These plants used whale oil, rosin, coal, or a mixture of coal, oil, and water that also produced a significant amount of waste. Many of the byproducts of the gas production, such as coal tar (oily waste containing volatile and non-volatile chemicals), sludges, oils and other compounds are potentially hazardous to human health and the environment. The byproduct from this process was frequently disposed of directly at the plant site and can remain or spread slowly, serving as a continuous source of soil and groundwater contamination.

A review of the EDR MGP list, as provided by EDR, has revealed that there is 1 EDR MGP site within

approximately 1 mile of the target property.

| Complaint Detail: | Not reported |
| Inspection Log: | [INSPECTION LOG #: 19034260 12-APR-23 12:05:00] ON TODAYS DATE THE CDPH INSPECTOR RESPONDED TO A NOISE COMPLAINT IN THE 2000 BLOCK OF N LINCOLN PARK/ CLARK, THE COMPLAINANT STATED THAT THE HER BUILDING ENGINEER TOLD HER THE NOISE WAS EMANATING FROM ONE OF THE BUILDING NORTHEAST OF HER. THE INSPECTOR CANVASSED THE BLOCK LISTENING FOR AN EXHAUST TYPE OF MECHANICAL NOISE. FINDING NONE THE INSPECTOR THEN SOUGHT OUT THE BUILDING ENGINEER WHO DIRECTED THE INSPECTOR TO THE ADJACENT BUILDING CLARITY HOUSE WHICH IS A RESIDENT TREATMENT FACILITY. THE KITCHEN EXHAUST (CLARITY HOUSE) WHICH CYCLES ON AND OFF VENTS TO THE SHARED ALLEYWAY BETWEEN 2020 N LINCOLN PARK AND 2026 N CLARK WAS IDENTIFIED AS A POSSIBLE SOURCE AND THE FACILITY HAD A VENDOR ON SITE FOR A DIFFERENT ISSUE. THE VENDOR STATED THAT HE WOULD ASSESS THE HOOD /EXHAUST AND PROVIDE REPORT TO BUILDING MANAGEMENT. SARAH THE FACILITY MANAGER RELATED THAT SHE WOULD FORWARD THE INSPECTOR THE BILLING AND/OR PAPERWORK ONCE RECEIVED AS PROOF OF THE RESOLVE TO THE NOISE ISSUE WITHIN 7 DAYS OF RECEIVING IT. |

**(Continued)** **S117474457**

INSPECTOR JUSTIN BARNES RESPONDED TO A NOISE COMPLAINT AT 2020 LINCOLN PARK WEST. INSPECTOR BARNES ARRIVED AT 10:30AM TO ATTEMPT TO SPEAK ? VIA TELEPHONE ? WITH THE COMPLAINANT. THE COMPLAINANT DID NOT ANSWER INSPECTOR BARNES? CALL OR RESPOND TO HIS VOICE MAIL MESSAGE.ACCORDING TO THE CITY OF CHICAGO?S 311 SYSTEM, THE COMPLAINANT STATED LOUD NOISES WERE EMANATING FROM EQUIPMENT CONNECTED THE RESIDENTIAL BUILDING LOCATED AT THE ABOVE LISTED ADDRESS.FOLLOWING HIS ATTEMPT TO CONTACT THE COMPLAINANT, INSPECTOR BARNES SURVEYED THE AREA (PHOTOS A, B, C, D, E). DURING THE SURVEY, INSPECTOR BARNES DID NOT OBSERVE THE SOUND OR DETECT A POTENTIAL SOURCE FOR THE SOUND. ADDITIONALLY, INSPECTOR BARNES OBSERVED EXTENSIVE NOISE RESULTING FROM ADJACENT VEHICLE/PEDESTRIAN/CTA TRAFFIC IN THE AREA. INFORMATIONAL NOISE METER READINGS TAKEN OF THE SURROUNDING AMBIENT SOUNDS WERE GREATLY IMPACTED BY THE ADJACENT NOISE.AS THE COMPLAINANT DID NOT RESPOND TO INSPECTOR BARNES AT THE TIME OF THE INSPECTION, NO FOLLOW UP COULD BE CONDUCTED. FOLLOWING THE INSPECTION, THE COMPLAINANT CONTACTED INSPECTOR BARNES TO REVIEW THE NATURE OF THEIR COMPLAINT. THE COMPLAINANT STATED THEIR COMPLAINT CENTERED ON A DISPUTE WITH THEIR BUILDING REGARDING ALARMS EMANATING FROM ELECTRICAL EQUIPMENT INTO THEIR RESIDENCE. INSPECTOR BARNES REVIEWED THE GENERAL REQUIREMENTS OF THE CHICAGO NOISE ORDINANCE IN THE MUNICIPAL CODE OF CHICAGO WITH THE COMPLAINANT.INSPECTOR BARNES DETERMINED NO CITATIONS WERE REQUIRED.

| Inspector: | 417325 |
| Inspection Date: | 09/14/2023 |
| Narrative: | On September 13, 2023, Chicago Department of Public Health (CDPH) Senior Environmental Inspector Justin Barnes responded to a noise complaint at 2020 Lincoln Park West.  Inspector Barnes arrived at 10:30AM to attempt to speak ? via telephone ? with the complainant.  The complainant did not answer Inspector Barnes? call or respond to his voice mail message.According to the City of Chicago?s 311 system, the complainant stated loud noises were emanating from equipment connected the residential building located at the above listed address.  Following his attempt to contact the complainant, Inspector Barnes surveyed the area (Photos A, B, C, D, & E).  During the survey, Inspector Barnes did not observe the sound or detect a potential source for the sound.  Additionally, Inspector Barnes observed extensive noise resulting from adjacent vehicle/pedestrian/CTA traffic in the area.  Informational noise meter readings taken of the surrounding ambient sounds were greatly impacted by the adjacent noise.As the complainant did not respond to Inspector Barnes at the time of the inspection, no follow up could be conducted.  Following the inspection, the complainant contacted Inspector Barnes to review the nature of their complaint.  The complainant stated their complaint centered on a dispute with their building regarding alarms emanating from electrical equipment into their residence.  Inspector Barnes reviewed the general requirements of the Chicago Noise Ordinance in the Municipal Code of Chicago with the complainant.Inspector Barnes determined no citations were required. |

| Inspector: | 129151 |
| Inspection Date: | 04/14/2023 |
| Narrative: | On todays date the CDPH Inspector  responded to a noise complaint in the 2000 block of N Lincoln Park/ Clark, the complainant stated that the  her building engineer told her the noise was emanating from one of the building northeast of her.  The inspector canvassed the block listening for an exhaust type of mechanical noise.   Finding none the inspector then sought out the building engineer who directed the inspector to the adjacent building Clarity House which is a resident treatment facility.  The kitchen exhaust (Clarity House)  which cycles on and off  vents to the shared alleyway between 2020 N Lincoln Park and 2026 N Clark was identified as a possible source and the facility had a vendor on site for a different issue. The vendor stated that he would |

**(Continued)** **S132184256**

assess the hood /exhaust and provide report to building management.   Sarah the facility manager related that she would forward the inspector  the billing and/or paperwork once received as proof of the resolve to the noise issue within 7 days of receiving it.

Environmental Interest/Information System:
The Resource Conservation and Recovery Act Information System (RCRAInfo) is EPA's comprehensive information system in support of the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. It tracks many types of information about generators, transporters, treaters, storers, and disposers of hazardous waste.
The Agency Compliance and Enforcement Systems (ACES) application supports the compliance and enforcement activities that exist primarily within the Illinois Bureaus of Air, Water, and Land, the Division of Legal Counsel, and the Office of Chemical Safety. The intent of the system is to track compliance and enforcement processes and to share the information throughout the agency, the public and with other entities.

Environmental Interest/Information System:
The Resource Conservation and Recovery Act Information System (RCRAInfo) is EPA's comprehensive information system in support of the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. It tracks many types of information about generators, transporters, treaters, storers, and disposers of hazardous waste.
The Agency Compliance and Enforcement Systems (ACES) application supports the compliance and enforcement activities that exist primarily within the Illinois Bureaus of Air, Water, and Land, the Division of Legal Counsel, and the Office of Chemical Safety. The intent of the system is to track compliance and enforcement processes and to share the information throughout the agency, the public and with other entities.

Inspection Name: 2050 N CLARK
Inspection Category: DOE GENERAL FLOW
Inspection Sub-Category: DEMOLITION/ASBESTOS
Inspector: 3308
Inspection Date: 08/15/2017
Narrative: On August 15, 2017 Chicago Department of Public Health (CDPH) Inspector Felipe Garcia (I) arrived at 2050 N. Clark St., to conduct an assigned demolition site inspection. Upon arrival I observed that the existing building that is due to be demolished was still intact. The inspector observed no one on site, or any activity. The inspector will do a re-inspection at a later date

Inspection Date: 09/26/2006
Narrative: THIS TICKET WAS A VISUAL AS I WAS RESPONDING TO ANOTHER COMPLAINT IN THE SAME AREA. I WAS TRAVELING SOUTH ON CLARK STREET AND NOTICED A THICK CLOUD OF DUST. AS THE DUST CLEARED I SAW A WORKER CARRYING A STONE SAW THAT DID HAVE A WATER HOOKUP. I WENT UP TO THE WORKER AND EXPLAINED TO HIM THAT HE HAS TO USE WATER WHEN HE CUTS CONCRETE AND TOLD HIM THAT HE WAS GOING TO BE RECEIVING A TICKET. THE WORKER WENT AND GOT HIS SUPERVISOR AND I ALSO EXPLAINED TO HIM WHAT THE ORDINANCES ARE, HE TOLD ME THAT THEY CAME OUT TO THE SITE WITHOUT THE PROPER EQUIPMENT. THE TICKETES ISSUED WERE: 7-28-080 11-4-630 THE WORKER'S INFORMATION IS: G&B CONSTRUCTION MARTIN ZARTE (630) 595-6474

Hazardous Waste Summary:
Waste Code: D001
Waste Description: Ignitable Waste

Waste Code: D002
Waste Description: Corrosive Waste

Waste Code: D003
Waste Description: Reactive Waste

Waste Code: D007
Waste Description: Chromium

Waste Code: D009
Waste Description: Mercury

Waste Code: D010
Waste Description: Selenium

Waste Code: D011
Waste Description: Silver

Waste Code: D018
Waste Description: Benzene

Waste Code: D024
Waste Description: M-Cresol

Waste Code: D027
Waste Description: 1,4-Dichlorobenzene

Waste Code: D029
Waste Description: 1,1-Dichloroethylene

Waste Code: D035

**CVS PHARMACY 2942 (Continued)** **1014952713**

Waste Description: Methyl Ethyl Ketone

Waste Code: P001
Waste Description: 2h-1-Benzopyran-2-One, 4-Hydroxy-3-(3-Oxo-1-Phenylbutyl)-, & Salts, When Present At Concentrations Greater Than 0.3% (Or) Warfarin, & Salts, When Present At Concentrations Greater Than 0.3%

Waste Code: P042
Waste Description: 1,2-Benzenediol, 4-[1-Hydroxy-2-(Methylamino)Ethyl]-, (R)- (Or) Epinephrine

Waste Code: P075
Waste Description: Nicotine, & Salts (Or) Pyridine, 3-(1-Methyl-2-Pyrrolidinyl)-,(S)-, & Salts

Waste Code: P081
Waste Description: 1,2,3-Propanetriol, Trinitrate (R) (Or) Nitroglycerine (R)

Waste Code: P188
Waste Description: Benzoic Acid, 2-Hydroxy-, Compd. With (3as-Cis)-1,2,3,3a,8,8a-Hexahydro-1,3a,8-Trimethylpyrrolo[2,3-B]Indol-5-Yl Methylcarbamate Ester (1:1) (Or) Physostigmine Salicylate

Waste Code: U002
Waste Description: 2-Propanone (I) (Or) Acetone (I)

Waste Code: U034
Waste Description: Acetaldehyde, Trichloro- (Or) Chloral

Waste Code: U035
Waste Description: Benzenebutanoic Acid, 4-[Bis(2-Chloroethyl)Amino]- (Or) Chlorambucil

Waste Code: U129
Waste Description: Cyclohexane, 1,2,3,4,5,6-Hexachloro-, (1alpha, 2alpha, 3beta, 4alpha, 5alpha, 6beta)- (Or) Lindane

Waste Code: U154
Waste Description: Methanol (I) (Or) Methyl Alcohol (I)

Waste Code: U159
Waste Description: 2-Butanone (I,T) (Or) Methyl Ethyl Ketone (Mek) (I,T)

Waste Code: U165
Waste Description: Naphthalene

Waste Code: U188
Waste Description: Phenol

Waste Code: U205
Waste Description: Selenium Sulfide (Or) Selenium Sulfide Ses2 (R,T)

Environmental Interest/Information System:

The Resource Conservation and Recovery Act Information System (RCRAInfo) is EPA's comprehensive information system in support of the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. It tracks many types of information about generators, transporters, treaters, storers, and disposers of hazardous waste.
The Agency Compliance and Enforcement Systems (ACES) application supports the compliance and enforcement activities that exist primarily within the Illinois Bureaus of Air, Water, and Land, the Division of Legal Counsel, and the Office of Chemical Safety. The intent of the system is to track compliance and enforcement processes and to share the information throughout the agency, the public and with other entities.

| Inspector: | 417337 |
| Complaint Date: | 8/2/2021 |
| Complaint Detail: | GATE SET UP IN STREET AT CONSTRUCTION SITE IS NOT SET RIGHT AND MAKING A LOT OF NOISE DUE TO NOT BEING INSTALLED CORRECTLY. |
| Inspection Log: | [INSPECTION LOG #: 14850189 02-AUG-21 15:00:00] ON AUGUST 2, 2021, SENIOR ENVIRONMENTAL INSPECTOR TRACY RICKER RESPONDED TO A 311 COMPLAINT OF AN UNSECURED STEEL PLATE MAKING NOISE AT 2140 N CLARK ST. AT THE TIME OF INSPECTION, A STEEL PLATE WAS OBSERVED IN CLARK STREET IN THE DIRECT VICINITY OF THE GIVEN ADDRESS. INSPECTOR RICKER OBSERVED MULTIPLE VEHICLES DRIVE OVER THIS PLATE. WHEN VEHICLES PASSED OVER THE PLATE, THE PLATE WAS OBSERVED TO MOVE IN A WAY THAT CREATED A SIGNIFICANT NOISE. THE COMPLAINT WAS SUBSEQUENTLY REFERRED TO THE CHICAGO DEPARTMENT OF TRANSPORTATION (CDOT). NO CITATIONS WERE ISSUED IN RESPONSE TO THIS INSPECTION. |

Name: Not reported
Address: 2140 N CLARK ST
City,State,Zip: CHICAGO, IL
Inspection ID: C14850189
Modified Date: 08/18/2021
Inspection Name: Not reported
Inspection Category: COMPLAINT RESPONSE
Inspection Sub-Category: CONSTRUCTION AND DEMOLITION
Inspector: 417337
Inspection Date: 08/18/2021
Narrative: On August 2, 2021, Senior Environmental Inspector Tracy Ricker responded to a 311 complaint of an unsecured steel plate making noise at 2140 N Clark St.  At the time of inspection, a steel plate was observed in Clark Street in the direct vicinity of the given address.  Inspector Ricker observed multiple vehicles drive over this plate.  When vehicles passed over the plate, the plate was observed to move in a way that created a significant noise.  The complaint was subsequently referred to the Chicago Department of Transportation (CDoT).  No citations were issued in response to this inspection.

Environmental Interest/Information System:
The Resource Conservation and Recovery Act Information System (RCRAInfo) is EPA's comprehensive information system in support of the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. It tracks many types of information about generators, transporters, treaters, storers, and disposers of hazardous waste.
The Agency Compliance and Enforcement Systems (ACES) application supports the compliance and enforcement activities that exist primarily within the Illinois Bureaus of Air, Water, and Land, the Division of Legal Counsel, and the Office of Chemical Safety. The intent of the system is to track compliance and enforcement processes and to share the information throughout the agency, the public and with other entities.

CHICAGO COMPLAINTS:
Name: Not reported
Address: 330 W WEBSTER AVE
City,State,Zip: CHICAGO, IL
Complaint ID: 601421898
Complaint Type: NOISE COMPLAINT
Inspector: 129151
Complaint Date: 8/25/2023
Complaint Detail: Not reported
Inspection Log: [INSPECTION LOG #: 20281370 25-AUG-23 14:20:00] ON TODAYS DATE THE CDPH INSPECTOR RESPONDED TO A CITIZEN COMPLAINT OF NOISE REPORTEDLY EMITTING FROM ATOP THE PARKER SCHOOL. UPON ARRIVAL THE INSPECTOR CANVASSED THE OUTER PERIMETER AND HEARD NO EQUIPMENT NOISE AT GROUND LEVEL. THE ASSISTANT DIRECTOR OF FACILITIES CHRIS ALLEN THEN ESCORTED THE INSPECTOR TO THE ROOFTOP WHERE THE HVAC AND CHILLERS WERE OBSERVED TO BE ENCLOSED WITH NOISE MITIGATING EQUIPMENT. THE INSPECTOR TOOK NOISE DECIBEL READINGS AT DIFFERENT AREAS OF THE ROOF TOP AND CAPTURED READINGS (FOR INFORMATION ONLY) THAT RANGE BETWEEN .57DBA AND .75 DBA WITH AMBIENT NOISE PRESENT. THERE WAS NO NOISE THAT YIELDED TO EQUIPMENT MALFUNCTIONING OR IN NEED IF REPAIR. WITHOUT ADDITIONAL INFORMATION THERE IS NO ENFORCEMENT AT THIS TIME.

| Inspector: | 129151 |
| Inspection Date: | 08/28/2023 |
| Narrative: | On todays date the CDPH Inspector responded to a citizen complaint of noise reportedly emitting from atop  the Parker School.   Upon arrival the inspector canvassed the outer perimeter and heard no equipment noise at ground level.  The Assistant  Director  of Facilities Chris Allen then escorted the Inspector to the rooftop where the HVAC and chillers were observed to be enclosed  with noise mitigating equipment.  The inspector took noise decibel readings at different areas of the roof top  and captured readings (for information only) that range between .57dBA and .75 dBA   with ambient noise present.  There was no noise that yielded to equipment malfunctioning or in need if repair. Without additional information there is no enforcement at this time.    |

Environmental Interest/Information System:
The Air Quality System (AQS) contains ambient air pollution data collected by EPA, State, Local, and Tribal air pollution control agencies from thousands of monitoring stations.
The Resource Conservation and Recovery Act Information System (RCRAInfo) is EPA's comprehensive information system in support of the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. It tracks many types of information about generators, transporters, treaters, storers, and disposers of hazardous waste.
The Agency Compliance and Enforcement Systems (ACES) application supports the compliance and enforcement activities that exist primarily within the Illinois Bureaus of Air, Water, and Land, the Division of Legal Counsel, and the Office of Chemical Safety. The intent of the system is to track compliance and enforcement processes and to share the information throughout the agency, the public and with other entities.

CHICAGO COMPLAINTS:

| | |
|---|---|
| Name: | Not reported |
| Address: | 2317 N CLARK ST |
| City,State,Zip: | CHICAGO, IL |
| Complaint ID: | 601237523 |
| Complaint Type: | CONSTRUCTION AND DEMOLITION |
| Inspector: | 379542 |
| Complaint Date: | 9/9/2022 |
| Complaint Detail: | Not reported |
| Inspection Log: | [INSPECTION LOG #: 17626139 09-SEP-22 14:30:00] ON SEPTEMBER 9, 2022 CITY OF CHICAGO DEPARTMENT OF PUBLIC HEALTH ENGINEER MIKE ENOS PE, AND INSPECTOR JOHN SINGLER CONDUCTED AN INSPECTION AT 2317 N. CLARK ST., CHICAGO, IL. THE INSPECTION WAS CONDUCTED BASED UPON A 3-1-1 COMPLAINT, SERVICE REQUEST SR22- 01599548. THE PROPERTY IS AN ACTIVE CONSTRUCTION SITE WITH A VARIETY OF ACTIVITIES ONGOING AT THE TIME OF THE INSPECTION, INCLUDING INSULATING WALLS, HANGING DRYWALL, AND ELECTRICAL WIRING, ALL BEING CONDUCTED AT THE TIME OF THE INSPECTION. THE SITE HAD NO 6’ FENCING AND MESHING, WITH HEAVY EQUIPMENT, BRICK, SAND AND DEBRIS ALONG THE BACK OF THE PROPERTY, BORDERING AN OPEN DRIVEWAY TO THE NORTH. THE FRONT OF THE PROPERTY IS RECESSED FOR A FUTURE STOREFRONT, AND WAS OPEN WITH NO FENCING OR MESH. DURING THE TIME OF THE INSPECTION LABORERS WERE OBSERVED CUTTING DRYWALL OR INSULATION WITH HAND TOOLS, SENDING CLOUDS OF DUST FROM THE UPPER FLOOR OF THE BUILDING THROUGH THE OPEN WINDOWS. THE INSPECTION TEAM WAS UNABLE TO PINPOINT THE EXACT LOCATION OF THE LABORER(S) CREATING THE OBSERVED DUST, BUT ALL OF THE WORKERS ENCOUNTERED WITHIN THE BUILDING WERE WARNED TO NOT DRY CUT MATERIALS WITHOUT DUST SUPPRESSION, SUCH AS VACUUM ATTACHMENTS OR WATER, DEPENDING ON EQUIPMENT BEING USED. NO PERMIT WAS POSTED ON SITE. A LABORER CONTACTED AN INDIVIDUAL WHO STATED THAT HE WAS THE SUPERINTENDENT AND THAT INDIVIDUAL WAS INFORMED OF THE OBSERVED VIOLATIONS. THE SUPERINTENDENT STATED THAT ALL CONSTRUCTION SITES WERE DUSTY. FOLLOWING THE CONVERSATION THE REPORTING INSPECTOR LEFT HIS NAME AND CONTACT WITH THE SUPERINTENDENT. A SHORT WHILE LATER THE REPORTING INSPECTOR RECEIVED A CALL FROM GREGORY GREIF, GREIF PROPERTIES 100 SKOKIE BLVD. SUITE 400D, WILMETTE, IL 60091. GREIF WAS INFORMED OF THE VIOLATIONS AND ATTITUDE OF HIS SUPERINTENDENT. GREIF STATED THAT THE SUPERINTENDENT WAS ’HAVING A BAD DAY.’ GREIF SENT A COPY OF THE CHICAGO DEPARTMENT OF BUILDINGS PERMIT TO THE REPORTING INSPECTOR AND STATED THAT THE SITE WOULD BE MONITORED MORE C |

| Inspector: | 379542 |
| Inspection Date: | 02/05/2019 |
| Narrative: | On February 5, 2019, City of Chicago Department of Public Health Inspectors Tracy Ricker and John Singler conducted a post-demolition inspection at 2317 N. Clark St., Chicago, IL.  A former large industrial building has been demolished and all demolition debris has been removed.  The cement pad remains and may be used for the new development.  Based upon this information, this inspection is closed.  |

| Inspector: | 379542 |
| Inspection Date: | 09/19/2022 |
| Narrative: | On September 9, 2022 City of Chicago Department of Public Health Engineer Mike Enos PE, and Inspector John Singler conducted an inspection at 2317 N. Clark St., Chicago, IL.  The inspection was conducted based upon a 3-1-1 complaint, Service Request SR22-01599548.  The property is an active construction site with a variety of activities ongoing at the time of the inspection, including insulating walls, hanging drywall, and electrical wiring, all being conducted at the time of the inspection.  The site had no 6’ fencing and meshing, with heavy equipment, brick, sand and debris along the back of the property, bordering an open driveway to the north.  The front of the property is recessed for a future storefront, and was open with no fencing or mesh.  During the time of the inspection laborers were observed cutting drywall or insulation with hand tools, sending clouds of dust from the upper floor of the building through the open windows.  The inspection team was unable to pinpoint the exact location of the laborer(s) creating the observed dust, but all of the workers encountered within the building were warned to not dry cut materials without dust suppression, such as vacuum attachments or water, depending on equipment being used.  No permit was posted on site. A laborer contacted an individual who stated that he was the superintendent and that individual was informed of the observed violations. The superintendent stated that all construction sites were dusty.  Following the conversation the reporting inspector left his name and contact with the superintendent.  A short while later the reporting inspector received a call from Gregory Greif, Greif Properties 100 Skokie Blvd. Suite 400D, Wilmette, IL 60091.  Greif was informed of the violations and attitude of his superintendent.  Greif stated that the superintendent was ’having a bad day.’  Greif sent a copy of the Chicago Department of |

**WALGREENS 1147 (Continued)** **S113267193**

Buildings permit to the reporting inspector and stated that the site would be monitored more closely.  Citation E000039458 13, Construction Site Cleanliness, 11-4-765(2)(b) Fencing, and 11-4-2170(b)(5) Dust Created From Hand Power Tools, was served on registered agent and company president Gary Greif at the address listed above.  Hearing Date December 15, 2022.

| Narrative: | An inspection was conducted of TOTAL HOME, LLC at their Construction site located at325 W Fullerton PKWY PERMIT # 100435525 to ensure compliance with the City of Chicago set forth C&D Debris Recycling Rules and Regulations.   The program which requires submission of a minimum of 50% of the C&D debris recycled after 30 days of the project completion signed and notarized. At the time of inspection I observed that the alteration project of the multi units residential building has been completed. An additional review of their permit application # 100435525 will be completed in the office as to determine actual date of their compliance form submission, including percentage of total debris recycled also to examine the C&D recycling set standard in other to establish if project meets the qualification criterial. |

| Inspection ID: | 1751396 |
| Modified Date: | 11/17/2021 |
| Inspection Name: | Not reported |
| Inspection Category: | DOE GENERAL FLOW |
| Inspection Sub-Category: | DEMOLITION/ASBESTOS |
| Inspector: | 379542 |
| Inspection Date: | 11/10/2021 |
| Narrative: | On November 10, 2021 City of Chicago Department of Public Health Inspector John Singler conducted an inspection at 2347 N. Cleveland Ave., Chicago, IL.  A single family dwelling is being built at the property and only half of the property is covered with 6’ chain link fencing with meshing.  The reporting inspector observed Chicago Department of Buildings Permit Number 1000868137, Dated April 23, 2021 which states in part:  ’Erect 3 story masonry SFR with basement....Contractor Berger General Contracting LLC, 1361 W. Fullerton Ave., Chicago, IL 60614.  The property is fenced and meshed across the front and one side.  The back of the |

**DASCO CLEVELAND, LLC (Continued)** **S127610942**

construction site and entire south side of the construction site was unfenced and unmeshed where it meets another residence.  Citation E000038133 11, Construction Site Cleanliness, 13-32-125(2)(b) Fencing, and 13-32-125(2)(c)(ii) Meshing, was served on registered agent David E. Berger at the address listed above.  Hearing Date December 30, 2021.

Feature Description: The U.S. Through The Department Of Defense (Dod) Acquired The Land By Lease Dated 28 August 1951 From The Chicago Park District (Cpd). The Site Was Established As Part Of The Anti-Aircraft Artillery Batteries Established Throughout The Chicagoland Area. Improvements Were Constructed On The Site For Military Purposes. At The Request Of The U.S., The Lease Was Terminated On 18 May 1958 And The Cpd Assumed Custody Of The Site.
Latitude: 41.9128011
Longitude: -87.6237841

FUDS Detail as of Jan 2015:
Fiscal Year: 2013
Federal Facility ID: IL9799F8858
RAB: Not reported
NPL Status: Not Listed
Description: The former 3.88 acre North Avenue Beach Housing and Gunsite property is physically located on the northeast side of the intersection of Lake Shore Drive and North Avenue in the City of Chicago, Cook County, Illinois. The North Avenue beach site was used as part of antiaircraft artillery batteries. The site is currently called North Avenue Beach and is a portion of the Chicago Park District.
History: The U.S. through the Department of Defense (DoD) acquired the land by lease dated 28 August 1951 from the Chicago Park District (CPD). The site was established as part of the anti-aircraft artillery batteries established throughout the Chicagoland area. Improvements were constructed on the site for military purposes. At the request of the U.S., the lease was terminated on 18 May 1958 and the CPD assumed custody of the site.

# GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

To maintain currency of the following federal and state databases, EDR contacts the appropriate governmental agency on a monthly or quarterly basis, as required.

**Number of Days to Update:** Provides confirmation that EDR is reporting records that have been updated within 90 days from the date the government agency made the information available to the public.

**STANDARD ENVIRONMENTAL RECORDS**

***Lists of Federal NPL (Superfund) sites***

NPL: National Priority List

National Priorities List (Superfund). The NPL is a subset of CERCLIS and identifies over 1,200 sites for priority cleanup under the Superfund Program. NPL sites may encompass relatively large areas. As such, EDR provides polygon coverage for over 1,000 NPL site boundaries produced by EPA's Environmental Photographic Interpretation Center (EPIC) and regional EPA offices.

Date of Government Version: 12/19/2024

Proposed NPL: Proposed National Priority List Sites

A site that has been proposed for listing on the National Priorities List through the issuance of a proposed rule in the Federal Register. EPA then accepts public comments on the site, responds to the comments, and places on the NPL those sites that continue to meet the requirements for listing.

Date of Government Version: 12/19/2024

Data Release Frequency: Quarterly

NPL LIENS: Federal Superfund Liens

Federal Superfund Liens. Under the authority granted the USEPA by CERCLA of 1980, the USEPA has the authority to file liens against real property in order to recover remedial action expenditures or when the property owner received notification of potential liability. USEPA compiles a listing of filed notices of Superfund Liens.

Date of Government Version: 10/15/1991
Date Data Arrived at EDR: 02/02/1994

***Lists of Federal Delisted NPL sites***

Delisted NPL: National Priority List Deletions

The National Oil and Hazardous Substances Pollution Contingency Plan (NCP) establishes the criteria that the EPA uses to delete sites from the NPL. In accordance with 40 CFR 300.425.(e), sites may be deleted from the NPL where no further response is appropriate.

Date of Government Version: 12/19/2024

***Lists of Federal sites subject to CERCLA removals and CERCLA orders***

FEDERAL FACILITY: Federal Facility Site Information listing

A listing of National Priority List (NPL) and Base Realignment and Closure (BRAC) sites found in the Comprehensive Environmental Response, Compensation and Liability Information System (CERCLIS) Database where EPA Federal Facilities Restoration and Reuse Office is involved in cleanup activities.

Date of Government Version: 11/20/2024

Next Scheduled EDR Contact: 04/07/2025
Data Release Frequency: Varies

SEMS: Superfund Enterprise Management System

SEMS (Superfund Enterprise Management System) tracks hazardous waste sites, potentially hazardous waste sites, and remedial activities performed in support of EPA's Superfund Program across the United States. The list was formerly know as CERCLIS, renamed to SEMS by the EPA in 2015. The list contains data on potentially hazardous waste sites that have been reported to the USEPA by states, municipalities, private companies and private persons, pursuant to Section 103 of the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA). This dataset also contains sites which are either proposed to or on the National Priorities List (NPL) and the sites which are in the screening and assessment phase for possible inclusion on the NPL.

Data Release Frequency: Quarterly

***Lists of Federal CERCLA sites with NFRAP***

SEMS-ARCHIVE: Superfund Enterprise Management System Archive

SEMS-ARCHIVE (Superfund Enterprise Management System Archive) tracks sites that have no further interest under the Federal Superfund Program based on available information. The list was formerly known as the CERCLIS-NFRAP, renamed to SEMS ARCHIVE by the EPA in 2015. EPA may perform a minimal level of assessment work at a site while it is archived if site conditions change and/or new information becomes available. Archived sites have been removed and archived from the inventory of SEMS sites. Archived status indicates that, to the best of EPA's knowledge, assessment at a site has been completed and that EPA has determined no further steps will be taken to list the site on the National Priorities List (NPL), unless information indicates this decision was not appropriate or other considerations require a recommendation for listing at a later time. The decision does not necessarily mean that there is no hazard associated with a given site; it only means that. based upon available information, the location is not judged to be potential NPL site.

***Lists of Federal RCRA TSD facilities***

RCRA-TSDF: RCRA - Treatment, Storage and Disposal

RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Transporters are individuals or entities that move hazardous waste from the generator offsite to a facility that can recycle, treat, store, or dispose of the waste. TSDFs treat, store, or dispose of the waste.

***Lists of Federal RCRA generators***

RCRA-LQG: RCRA - Large Quantity Generators

RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Large quantity generators (LQGs) generate over 1,000 kilograms (kg) of hazardous waste, or over 1 kg of acutely hazardous waste per month.

Date of Government Version: 09/16/2024
Date Data Arrived at EDR: 09/17/2024

RCRA-SQG: RCRA - Small Quantity Generators

RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Small quantity generators (SQGs) generate between 100 kg and 1,000 kg of hazardous waste per month.

RCRA-VSQG: RCRA - Very Small Quantity Generators (Formerly Conditionally Exempt Small Quantity Generators)

RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Very small quantity generators (VSQGs) generate less than 100 kg of hazardous waste, or less than 1 kg of acutely hazardous waste per month.

LF SPECIAL WASTE: Special Waste Site List

These landfills, as of January 1, 1990, accept non-hazardous special waste pursuant to the Illinois EPA Non-Hazardous Special Waste Definition. List A includes landfills that may receive any non-hazardous waste, Non-Regional Pollution Control Facilities are so noted. List B includes landfills designed to receive specific non-hazardous wastes. List B landfills are designated as a Regional Pollution Control Facility by RPCF, or Non-Regional Pollution Control Facility by Non-RPCF.

LUST TRUST: Underground Storage Tank Fund Payment Priority List
In case sufficient funds are not available in the Underground Storage Tank Fund, requests for payment are entered on the Payment Priority List by "queue date" order. As required by the Environmental Protection Act, the queue date is the date that a complete request for partial or final payment was received by the Agency. The queue date is "officially" confirmed at the end of the payment review process when a Final Decision Letter is sent to the site owner.

**ADDITIONAL ENVIRONMENTAL RECORDS**

***Local Brownfield lists***

US BROWNFIELDS: A Listing of Brownfields Sites

Brownfields are real property, the expansion, redevelopment, or reuse of which may be complicated by the presence or potential presence of a hazardous substance, pollutant, or contaminant. Cleaning up and reinvesting in these properties takes development pressures off of undeveloped, open land, and both improves and protects the environment. Assessment, Cleanup and Redevelopment Exchange System (ACRES) stores information reported by EPA Brownfields grant recipients on brownfields properties assessed or cleaned up with grant funding as well as information on Targeted Brownfields Assessments performed by EPA Regions. A listing of ACRES Brownfield sites is obtained from Cleanups in My Community. Cleanups in My Community provides information on Brownfields properties for which information is reported back to EPA, as well as areas served by Brownfields grant programs.

US CDL: Clandestine Drug Labs

A listing of clandestine drug lab locations. The U.S. Department of Justice ("the Department") provides this web site as a public service. It contains addresses of some locations where law enforcement agencies reported they found chemicals or other items that indicated the presence of either clandestine drug laboratories or dumpsites. In most cases, the source of the entries is not the Department, and the Department has not verified the entry and does not guarantee its accuracy. Members of the public must verify the accuracy of all entries by, for example, contacting local law enforcement and local health departments.

SCRD DRYCLEANERS: State Coalition for Remediation of Drycleaners Listing

The State Coalition for Remediation of Drycleaners was established in 1998, with support from the U.S. EPA Office of Superfund Remediation and Technology Innovation. It is comprised of representatives of states with established drycleaner remediation programs. Currently the member states are Alabama, Connecticut, Florida, Illinois, Kansas, Minnesota, Missouri, North Carolina, Oregon, South Carolina, Tennessee, Texas, and Wisconsin.

EPA WATCH LIST: EPA Watch List

EPA maintains a "Watch List" to facilitate dialogue between EPA, state and local environmental agencies on enforcement matters relating to facilities with alleged violations identified as either significant or high priority. Being on the Watch List does not mean that the facility has actually violated the law only that an investigation by EPA or a state or local environmental agency has led those organizations to allege that an unproven violation has in fact occurred. Being on the Watch List does not represent a higher level of concern regarding the alleged violations that were detected, but instead indicates cases requiring additional dialogue between EPA, state and local agencies - primarily because of the length of time the alleged violation has gone unaddressed or unresolved.

2020 COR ACTION: 2020 Corrective Action Program List

The EPA has set ambitious goals for the RCRA Corrective Action program by creating the 2020 Corrective Action Universe. This RCRA cleanup baseline includes facilities expected to need corrective action. The 2020 universe contains a wide variety of sites. Some properties are heavily contaminated while others were contaminated but have since been cleaned up. Still others have not been fully investigated yet, and may require little or no remediation. Inclusion in the 2020 Universe does not necessarily imply failure on the part of a facility to meet its RCRA obligations.

RMP: Risk Management Plans

When Congress passed the Clean Air Act Amendments of 1990, it required EPA to publish regulations and guidance for chemical accident prevention at facilities using extremely hazardous substances. The Risk Management Program Rule (RMP Rule) was written to implement Section 112(r) of these amendments. The rule, which built upon existing industry codes and standards, requires companies of all sizes that use certain flammable and toxic substances to develop a Risk Management Program, which includes a(n): Hazard assessment that details the potential effects of an accidental release, an accident history of the last five years, and an evaluation of worst-case and alternative accidental releases; Prevention program that includes safety precautions and maintenance, monitoring, and employee training measures; and Emergency response program that spells out emergency health care, employee training measures and procedures for informing the public and response agencies (e.g the fire department) should an accident occur.

RAATS: RCRA Administrative Action Tracking System

RCRA Administration Action Tracking System. RAATS contains records based on enforcement actions issued under RCRA pertaining to major violators and includes administrative and civil actions brought by the EPA. For administration actions after September 30, 1995, data entry in the RAATS database was discontinued. EPA will retain a copy of the database for historical records. It was necessary to terminate RAATS because a decrease in agency resources made it impossible to continue to update the information contained in the database.

HIST FTTS: FIFRA/TSCA Tracking System Administrative Case Listing

A complete administrative case listing from the FIFRA/TSCA Tracking System (FTTS) for all ten EPA regions. The information was obtained from the National Compliance Database (NCDB). NCDB supports the implementation of FIFRA (Federal Insecticide, Fungicide, and Rodenticide Act) and TSCA (Toxic Substances Control Act). Some EPA regions are now closing out records. Because of that, and the fact that some EPA regions are not providing EPA Headquarters with updated records, it was decided to create a HIST FTTS database. It included records that may not be included in the newer FTTS database updates. This database is no longer updated.

UMTRA: Uranium Mill Tailings Sites

Uranium ore was mined by private companies for federal government use in national defense programs. When the mills shut down, large piles of the sand-like material (mill tailings) remain after uranium has been extracted from the ore. Levels of human exposure to radioactive materials from the piles are low; however, in some cases tailings were used as construction materials before the potential health hazards of the tailings were recognized.

US AIRS (AFS): Aerometric Information Retrieval System Facility Subsystem (AFS)

The database is a sub-system of Aerometric Information Retrieval System (AIRS). AFS contains compliance data on air pollution point sources regulated by the U.S. EPA and/or state and local air regulatory agencies. This information comes from source reports by various stationary sources of air pollution, such as electric power plants, steel mills, factories, and universities, and provides information about the air pollutants they produce. Action, air program, air program pollutant, and general level plant data. It is used to track emissions and compliance data from industrial plants.

ABANDONED MINES: Abandoned Mines

An inventory of land and water impacted by past mining (primarily coal mining) is maintained by OSMRE to provide information needed to implement the Surface Mining Control and Reclamation Act of 1977 (SMCRA). The inventory contains information on the location, type, and extent of AML impacts, as well as, information on the cost associated with the reclamation of those problems. The inventory is based upon field surveys by State, Tribal, and OSMRE program officials. It is dynamic to the extent that it is modified as new problems are identified and existing problems are reclaimed.

PFAS RCRA MANIFEST: PFAS Transfers Identified In the RCRA Database Listing

To work around the lack of PFAS waste codes in the RCRA database, EPA developed the PFAS Transfers dataset by mining e-Manifest records containing at least one of these common PFAS keywords: PFAS, PFOA, PFOS, PERFL, AFFF, GENX, GEN-X (plus the VT waste codes). These keywords were searched for in the following text fields: Manifest handling instructions (MANIFEST_HANDLING_INSTR), Non-hazardous waste description (NON_HAZ_WASTE_DESCRIPTION), DOT printed information (DOT_PRINTED_INFORMATION), Waste line handling instructions (WASTE_LINE_HANDLING_INSTR), Waste residue comments (WASTE_RESIDUE_COMMENTS).

PFAS NPDES: Clean Water Act Discharge Monitoring Information

Any discharger of pollutants to waters of the United States from a point source must have a National Pollutant Discharge Elimination System (NPDES) permit. The process for obtaining limits involves the regulated entity (permittee) disclosing releases in a NPDES permit application and the permitting authority (typically the state but sometimes EPA) deciding whether to require monitoring or monitoring with limits. Caveats and Limitations: Less than half of states have required PFAS monitoring for at least one of their permittees and fewer states have established PFAS effluent limits for permittees. New rulemakings have been initiated that may increase the number of facilities monitoring for PFAS in the future.

PFAS ECHO FIRE TRAIN: Facilities in Industries that May Be Handling PFAS Listing

A list of fire training sites was added to the Industry Sectors dataset using a keyword search on the permitted facilitys name to identify sites where fire-fighting foam may have been used in training exercises. Additionally, you may view an example spreadsheet of the subset of fire training facility data, as well as the keywords used in selecting or deselecting a facility for the subset. as well as the keywords used in selecting or deselecting a facility for the subset. These keywords were tested to maximize accuracy in selecting facilities that may use fire-fighting foam in training exercises, however, due to the lack of a required reporting field in the data systems for designating fire training sites, this methodology may not identify all fire training sites or may potentially misidentify them.

PFAS PT 139 AIRPORT: All Certified Part 139 Airports PFAS Information Listing

Since July 1, 2006, all certified part 139 airports are required to have fire-fighting foam onsite that meet military specifications (MIL-F-24385) (14 CFR 139.317). To date, these military specification fire-fighting foams are fluorinated and have been historically used for training and extinguishing. The 2018 FAA Reauthorization Act has a provision stating that no later than October 2021, FAA shall not require the use of fluorinated AFFF. This provision does not prohibit the use of fluorinated AFFF at Part 139 civilian airports; it only prohibits FAA from mandating its use. The Federal Aviation Administration?s document AC 150/5210-6D - Aircraft Fire Extinguishing Agents provides guidance on Aircraft Fire Extinguishing Agents, which includes Aqueous Film Forming Foam (AFFF).

UST FINDER: UST Finder Database
EPA developed UST Finder, a web map application containing a comprehensive, state-sourced national map of underground storage tank (UST) and leaking UST (LUST) data. It provides the attributes and locations of active and closed USTs, UST facilities, and LUST sites from states and from Tribal lands and US territories . UST Finder contains information about proximity of UST facilities and LUST sites to: surface and groundwater public drinking water protection areas; estimated number of private domestic wells and number of people living nearby; and flooding and wildfires.

HWAR: Hazard Waste Annual Report

Each year, Illinois hazardous-waste generators tell the Illinois EPA the amounts and kinds of hazardous waste they produced during the previous year. Generators indicate by code the types of wastes produced and the steps they took to manage these wastes. If some or all of these wastes were sent to commercial treatment, storage, and disposal facilities (TSDFs), that information and the identity of each receiving facility also are submitted. Illinois TSDFs likewise report the types and quantities of wastes received from in-state and out-of-state generators; they also report the procedures they used to manage these wastes.

**EDR HIGH RISK HISTORICAL RECORDS**

***EDR Exclusive Records***

EDR MGP: EDR Proprietary Manufactured Gas Plants

The EDR Proprietary Manufactured Gas Plant Database includes records of coal gas plants (manufactured gas plants) compiled by EDR's researchers. Manufactured gas sites were used in the United States from the 1800's to 1950's to produce a gas that could be distributed and used as fuel. These plants used whale oil, rosin, coal, or a mixture of coal, oil, and water that also produced a significant amount of waste. Many of the byproducts of the gas production, such as coal tar (oily waste containing volatile and non-volatile chemicals), sludges, oils and other compounds are potentially hazardous to human health and the environment. The byproduct from this process was frequently disposed of directly at the plant site and can remain or spread slowly, serving as a continuous source of soil and groundwater contamination.

**OTHER DATABASE(S)**

Depending on the geographic area covered by this report, the data provided in these specialty databases may or may not be complete. For example, the existence of wetlands information data in a specific report does not mean that all wetlands in the area covered by the report are included. Moreover, the absence of any reported wetlands information does not necessarily mean that wetlands do not exist in the area covered by the report.

CT MANIFEST: Hazardous Waste Manifest Data

Facility and manifest data. Manifest is a document that lists and tracks hazardous waste from the generator through transporters to a tsd facility.

Sensitive Receptors: There are individuals deemed sensitive receptors due to their fragile immune systems and special sensitivity to environmental discharges. These sensitive receptors typically include the elderly, the sick, and children. While the location of all sensitive receptors cannot be determined, EDR indicates those buildings and facilities - schools, daycares, hospitals, medical centers, and nursing homes - where individuals who are sensitive receptors are likely to be located.

AHA Hospitals:
Source: American Hospital Association, Inc.
Telephone: 312-280-5991
The database includes a listing of hospitals based on the American Hospital Association's annual survey of hospitals.

Medical Centers: Provider of Services Listing
Source: Centers for Medicare & Medicaid Services
Telephone: 410-786-3000
A listing of hospitals with Medicare provider number, produced by Centers of Medicare & Medicaid Services, a federal agency within the U.S. Department of Health and Human Services.

Nursing Homes
Source: National Institutes of Health
Telephone: 301-594-6248
Information on Medicare and Medicaid certified nursing homes in the United States.

Public Schools
Source: National Center for Education Statistics
Telephone: 202-502-7300
The National Center for Education Statistics' primary database on elementary and secondary public education in the United States. It is a comprehensive, annual, national statistical database of all public elementary and secondary schools and school districts, which contains data that are comparable across all states.

Private Schools

**RE: Environmental Records Search**
**2020 N. Lincoln Park West, Unit CU2**
**Chicago, Illinois**
**ETS Project No. 15-0965A**

Dear Mr. Zonts:

ETS Environmental & Associates, LLC (ETS) has completed a review of an environmental records search for the above property as provided by Environmental Risk Information Service (ERIS).

**RECORDS SEARCH FINDINGS**

The ERIS report is provided within Attachment A.

The Property (2020 N. Lincoln Park West) was listed on the UST database. One (1) 15,000-gallon heating oil UST was abandoned in place in 1992. No reported LUST incidents are listed for the Property. For this reason and since the Property is a single condominium unit located within the building, the potential for environmental impact to the condominium unit appears to be low.

The closest facility with known environmental impact is located just north of the Property at 2042 North Clark Street. This facility is listed on the Site Remediation Program (SRP) as a dry cleaner. The No Further Remediation (NFR) letter was issued in 2001. For this reason and since this facility is located several properties to the north, the potential for environmental impact appears to be low.

The remaining identified facilities were located at distances which should not warrant environmental concern.

**GENERAL COMMENTS**

Based on the information contained in this report, it appears that the environmental risk for the subject property is minimal and would be considered **LOW RISK.**

This letter has been prepared for the exclusive use of Elgin State Bank concerning the property referenced within, and may not be reproduced, distributed, or relied upon by others without the prior written authorization of Elgin State Bank and ETS Environmental & Associates, LLC (ETS).

The recommendations stated in this letter are based upon information provided by others. ETS has no reason to suspect or believe that the information provided is inaccurate. However, ETS cannot be held responsible for the accuracy of the information provided by others. The scope of this assessment does not purport to encompass every report, record, or other form of documentation relevant to the property being evaluated.

If you have any questions pertaining to this letter, please do not hesitate to call us at (630) 513-4710. Thank you for allowing ETS to continue to provide environmental services for Elgin State Bank.

Sincerely,

David J. Wagner
Sr. Project Manager

## 1.0 EXECUTIVE SUMMARY

Galaxy Environmental, Inc. was hired by Craig M. Nelson, to conduct an asbestos survey at 2020 N. Lincoln Park West (Formerly, White Hen Pantry) Bulk samples were collected from the exterior and interior of the building by an Illinois Department of Public Health (IDPH) licensed asbestos inspector Michael Chagoya (IDPH License #100-03390). The purpose of the survey was to determine the presence of asbestos containing material throughout the interior and exterior of the building prior to being demolished. The survey was conducted on May 16, 2024.

## 2.0 METHOD

Bulk samples were collected in accordance with generally accepted industry standards for bulk sampling procedures.

Bulk samples were assigned sample numbers including an alphanumeric code identifying the inspector, and date of initial sampling. The Chain of Custody/Laboratory Analysis Repots in Appendix A indicates the results of laboratory analysis on the bulk samples collected. All analyses were performed at STAT Analysis Corporation, (STAT). A National Voluntary Accreditation Program (NVLAP) certified laboratory in Chicago, Illinois. (Refer to Appendix C for Laboratory Accreditations).

Samples are prepared in a negative pressure hood with High Efficiency Particulate Air (HEPA) filtered air and analyzed for bulk asbestos fiber in accordance with the United States Environmental Protection Agency

(USEPA) Interim Method for the Determination of Asbestos in Bulk Insulation Samples as found in 40 CFR, Part 763, Subpart F, Appendix A or the current

USEPA method for the analysis of asbestos in building materials. The unique laboratory sample number assigned by EMSL corresponds to the Galaxy Environmental sample number.

Sample results are expressed in percentage of asbestos and non-asbestos materials, commonly including fiberglass, cellulose, and binder. The definition of binder has been provided in the National Institute of Standards and Technology (NIST) Handbook 150-3 Section 285.5 which defines binder with reference to a bulk sample as a component added for cohesiveness (e.g. plaster, cement, glue, etc.) Therefore, a binder is terminology widely used to express the non-asbestos containing materials. Since STAT is a NIST-certified laboratory, it follows the guidelines provided by NIST.

## 3.0 FINDINGS

**Asbestos Containing Materials (ACM)**

Bulk samples were collected throughout the building's interior and exterior. The results of this survey are summarized in the following Table 1. Refer to Appendix A for laboratory results and chain of custody forms.

Note: Table 1 includes results from the May 16, 2024.

**Table 1: Results of Materials Tested at 2020 N. Lincoln Park West Chicago, IL 60614**

| SAMPLE # | MATERIAL DESCRIPTION | MATERIAL LOCATION | TEST RESULTS |
|---|---|---|---|
| 370795001 MC05162024-01 | Roof drain Insulation E/J/C | Lower level (White Hen Pantry) | Negative |
| 370795002 MC05162024-02 | Insulation E/J/C | Lower level (White Hen Pantry) | Positive |

| | | | |
|---|---|---|---|
| 370795003<br>MC05162024-03FT | Lt. Brown floor tile | Lower level<br>(White Hen Pantry) | Positive |
| 370795004<br>MC05162024-03M | Lt. Brown floor tile mastic | Lower level<br>(White Hen Pantry) | Positive |
| 370795005<br>MC05162024-04FT | Lt. Brown floor tile | Lower level<br>(White Hen Pantry) | Positive |
| 370795006<br>MC05162024-04M | Lt. Brown floor tile mastic | Lower level<br>(White Hen Pantry) | Positive |
| 370795007<br>MC05162024-05FT | Lt. Brown floor tile | Lower level<br>(White Hen Pantry) | Positive |
| 370795008<br>MC05162024-05M | Lt. Brown floor tile mastic | Lower level<br>(White Hen Pantry) | Positive |

Any suspect materials that are discovered during renovation/demolition activities and are not listed in above table was not sampled during the survey. Such materials shall be assumed and treated as ACM until tested and proven otherwise.

The Occupational Safety and Health Administration (OSHA), IDPH, and EPA define an asbestos containing material as any material containing greater than one percent (1%) asbestos by volume, when analyzed by Polarized Light Microscopy (PLM) or Transmission Electron Microscopy (TEM).

## 4.0 RECOMMENDATIONS

Galaxy Environmental, Inc recommends that prior to any demolition/renovation activities in which ACM or suspect ACM may be removed or disturbed, copy of the comprehensive asbestos survey report be reviewed. Asbestos abatement may be required for ACM still in place. The abatement of ACM shall be conducted by an IDPH-licensed asbestos abatement contractor under the monitoring of an environmental consultant.

The abatement work shall be performed in accordance with applicable local, state, and federal regulations, including but not limited to: IDPH Asbestos Abatement for Public and Private Schools and Commercial and Public

Buildings (Title 77, Part 855); Illinois Environmental Protection Act (415 ILCS); Occupational safety and Health Regulations (1926.1101); United States Environmental Protection Agency (40 CFR 61M), Cook County Environmental Control Ordinance (Article X), and Municipal Codes of Chicago (Title 11, Chapter 11-4)

Please contact our office should you have any questions regarding this report.

Respectfully submitted

**Galaxy Environmental, Inc.**

**Michael Chagoya**
**Inspector #100-03390**

**Re: Asbestos Abatement Clearance Air Sampling Report**
**Commercial Property – 2020 N. Clark Street, Chicago, Illinois 60614**
**TEM Project No. 73784 – Lower-Level Retail Space – Flooring Abatement**

Dear Mr. DeLuca:

Attached please find the results of the asbestos abatement clearance air sampling performed by TEM Environmental, Inc. (TEM) at the above referenced location. Air sampling was performed to measure the concentration of total airborne fibers following the removal/abatement of asbestos containing floor tile and mastic from a lower-level retail space. Sampling and analysis were performed by TEM representative Mr. Elmer Spraggins II on June 28, 2024. Mr. Spraggins is licensed by the Illinois Department of Public Health as an Asbestos Air Sampling Professional.

NIOSH Test Method 7400 "Total Airborne Fibers" was used to collect and analyze air samples following the flooring abatement activities performed by Universal Asbestos Removal. NIOSH Test Method 7400 utilizes the collection of airborne particulate matter on mixed cellulose ester membrane filters and analysis of the fibrous portion by phase contrast microscopy at 400x magnification. The method factors in all particles meeting the physical definition of a fiber, greater than 5 microns in length and a length to width ratio greater than 3:1. TEM participates in the NIOSH PAT Program and the AIHA-AAR Program for this test method. Copies of results from the most recent rounds in these programs are available upon written request.

The results of the air sampling confirm the abatement work area located on the lower level of the property may be released for normal use and/or access without further restriction related to asbestos. See attached data table for details on the locations and results of each sample collected.

See Appendix A for Air Sampling Professional and Laboratory accreditations and Appendix B for sample chain of custody documentation and daily field log of observations.

Please feel free to call me directly at 630-790-0880 if you have any questions or require any additional information.

Sincerely,

IHPAT Round 236
Proficiency Testing Performance for Participant ID: PAT-101151

Report Issue Date: 02/15/2024

TEM Environmental, Inc.
174 N Brandon Dr
Glendale Heights, IL 60139-2025

This report contains your organization's IHPAT Proficiency Analytical Testing results for **IHPAT Round 236**. It is the participant's responsibility to thoroughly review the information in this final report and to immediately contact the AIHA Proficiency Analytical Testing Programs, in writing, if any errors are found.

**IHPAT Results**
The final report is comprised of two sections relating to IHPAT Round 236. The first section contains your organization's results listed per analyte, per sample. The second section contains your current performance and performance from the two previous rounds, respectively (where applicable). Summary results for all participants for IHPAT Round 236 are located in a separate report.

***Testing Results for IHPAT Round 236***
This part of the report contains your organization's results listed per analyte, per sample.

| Contaminant | Unit | # | Result | Ref. Value | Lower Limit | Upper Limit | z-Score | Rating |
|---|---|---|---|---|---|---|---|---|
| Asbestos (ASB) | f/mm² | 1 | 280 | 241 | 135 | 377 | 1 | A |
| | f/mm² | 2 | 400 | 385 | 209 | 615 | 0.2 | A |
| | f/mm² | 3 | 199 | 135 | 80 | 203 | 3.2 | A |
| | f/mm² | 4 | 103 | 137 | 78 | 213 | -1.5 | A |

**Statistical Analysis Interpretation Note:**
Reference value is the mean of the reference group.
Lower limit = reference value - 3 standard deviations; Upper limit = reference value + 3 standard deviations
z-Score = (reported result - reference value)/standard deviation. Note: z-Scores indicate how far a particular score is away from the mean.A - Acceptable* Analysis; U - Unacceptable Analysis; E - Excused Absence
Fiber data are positively skewed therefore transformations are used to obtain approximately normal distributions. Both the assigned values and acceptance limits are based on consensus of the reference group.
*The acceptability of reported results is based on upper and lower acceptance limits. A reported result may appear acceptable/unacceptable according to z-Score, but be identified as an outlier based upon the acceptance limits. Any non-participation or non-reporting of PAT data will result in unacceptable results (see PAT Programs Participation Policies, Section 2.1.6.2.).
Measurement uncertainty of any assigned value is also available on the respective certificate of analysis for the round.
**Technical Comment:**
Silica Sample 1 did not pass scoring acceptance criteria and was not scored.

**Overall Performance Summary Concluding with IHPAT Round 236**

The following table contains your organization's current and two previous test rounds performance respectively (where applicable). For more information in regard to the determination of proficiency, please visit: www.aihapat.org.

| Analyte Class | Round | Round Score | Round Performance | Proficiency Status - Three Round Score |
|---|---|---|---|---|
| Asbestos | 234 | 4/4 | PASS | |
| | 235 | 4/4 | PASS | |
| | 236 | 4/4 | PASS | PROFICIENT |

**Interpretation Notes:**

The denominators represent the total number of samples analyzed.The numerators represent the number of acceptable results.
Pass: Round Score greater than or equal to 75%
Fail: Round Score less than 75%
P - Proficient; NP - Non-proficient; I - Indeterminate (not enough rounds to determine proficiency)
A participant is rated proficient for the applicable IHPAT analyte group if the participant has a passing score for the applicable IHPAT analyte group in two (2) of the last three (3) consecutive PT rounds. A participant is rated non-proficient for the applicable PT analyte group if the participant has failing scores for the associated PT analyte group in two (2) of the last three (3) consecutive PT rounds.

Additional information on the following items are available in the IHPAT Scheme Plan:
Procedures used to statistically analyze the data, establish the assigned value and standard deviation for proficiency assessment, or other criteria for evaluation; details of the metrological traceability and measurement uncertainty of the assigned value; information about design and implementation of PT scheme. The Industrial Hygiene Scheme Plan is available in the PAT Portal. Measurement uncertainty of any assigned value is also available on the respective certificate of analysis for the round.

Participants shall not describe their proficiency status in a manner that implies accreditation, certification or variations thereof. PAT results pertain only to the participant organization at the location listed on this results report. AIHA PAT Programs makes every effort to ensure that individual participant results are kept confidential and are not made public. Round results are only released to the participant and those entities requiring this information for accreditation, regulatory and contract purposes. New participants are made aware of the arrangement in advance of participation and consent is sought prior to the release of records for participants. PAT reports may not be reproduced or distributed unless copied in its entirety.

IHPAT samples are generated, verified, packaged, and shipped by RTI International under contract with AIHA Proficiency Analytical Testing Programs. Unless otherwise noted, sample homogeneity and stability criteria were satisfied for all samples.

# GRANT OF EASEMENTS

THIS INDENTURE is made this 16th day of June, 1970, by and between CHICAGO TITLE AND TRUST COMPANY, as Trustee under Trust Agreement dated May 9, 1969 and known as Trust Number 53662 ("Chicago Title") and COSMOPOLITAN NATIONAL BANK OF CHICAGO, as Trustee under Trust Agreement dated March 25, 1965 and known as Trust Number 15152 ("Cosmopolitan") (Chicago Title and Cosmopolitan are collectively referred to herein as "Grantors") and OAK PARK NATIONAL BANK, a National Banking Association, as Trustee under Trust Agreement dated December 6, 1964 and known as Trust Number 6849 ("Oak Park") and CLAYTON RESIDENTIAL HOME, INC., formerly known as THE LEED CORPORATION, an Illinois corporation ("Clayton") (Oak Park and Clayton are collectively referred to herein as "Grantees").

W I T N E S S E T H:

WHEREAS, Chicago Title is the owner of and holds title to the following described real estate, to-wit:

Sub Lot 1 of Kuhn's Subdivision of the East half of Lot 7 in Block 31 in Canal Trustee's Subdivision of Section 33, Township 40 North, Range 14, East of the Third Principal Meridian, in Cook County, Illinois,

21 260 891

and Cosmopolitan is the owner of and holds title to the following described real estate, to-wit:

Lots 4, 5 and 8 in Kuhn's Subdivision of the East half of Lot 7 in Block 31 in the Canal Trustee's Subdivision in Section 33, Township 40 North, Range 14, East of the Third Principal Meridian, in Cook County, Illinois,

(both of which parcels are collectively referred to herein as "Parcel A");

Order: 15020713PKPK Doc: 21260891 Page 1 of 15 Created By: Linda Pazanin Printed: 10/7/2015 9:48:05 AM CST

WHEREAS, Oak Park holds title to and Leed is the contract purchaser of the following described real estate, to-wit:

That part of Lot 5 in Christian Kuhn's Subdivision of Block 31 in the Canal Trustee's Subdivision of Section 33, Township 40 North, Range 14, East of the Third Principal Meridian, in Cook County, Illinois, described as follows: Beginning at a point of intersection of the North line of said Lot 5 with the East line of Lane Place; running thence South along the West line of said Lot 5, 72.60 feet to the South line of said Lot 5; thence East along the South line of said Lot 5, 146 feet to the center of private alley as laid out and used from the North line to the South line of said Lot 5; thence Northwesterly in a straight line along the center of said private alley to a point which is 54.48 feet South of the North line of said Lot 5 and 139.6 feet East of the East line of Lane Place; thence Northerly along the center of said private alley 54.48 feet to a point in the North line of said Lot 5 which is 139.6 feet East of the East line of Lane Place; thence Westerly along the said North line of Lot 5, 139.6 feet to the place of beginning;

ALSO

That part of Lot 5 in Christian Kuhn's Subdivision of Block 31 in Canal Trustee's Subdivision in Section 33, Township 40 North, Range 14, East of the Third Principal Meridian, in Cook County, Illinois, lying East of a line commencing at a point in the North line of said Lot 5, 139.60 feet East of the East line of Lane Place; running thence South parallel to the East line of Lane Place; 54.48 feet; thence Southeast to a point in the South line of said Lot 5, 146 feet East of the East line of Lane Place

(Parcel "B");

21 260 891

WHEREAS, a building is presently located on Parcel B;

WHEREAS, a portion of the twelve-foot public alley shown on Exhibit "A" attached hereto lies west of and adjacent to Parcel A and is now used by Grantees for ingress and egress to and from the building presently located on Parcel B;

WHEREAS, pursuant to a certain Trustees Deed from Oak Park to Joseph C. Gross and a certain Deed in Trust from

Order: 15020713PKPK Doc: 21260891 Page 2 of 15 Created By: Linda Pazanin Printed: 10/7/2015 9:48:05 AM CST

Joseph C. Gross, a bachelor, to Chicago Title recorded by the Recorder of Deeds, Cook County, Illinois as Documents Nos. 20955487 and 20955488, respectively, conveying Parcel A, Oak Park reserved to itself and its successors and assigns easements of ingress and egress and light and air over a part of the real estate so conveyed, and imposed upon Chicago Title, its heirs, executors, administrators, assigns and grantees, certain setback requirements as more fully described therein ("Reserved Easement and Set-Back");

WHEREAS, Grantors desire to have the City of Chicago vacate the entire alley described in Exhibit "A" as "to be vacated" ("Alley") and obtain the consent of the Grantees thereto;

WHEREAS, in consideration of the giving of such consent and upon such vacation, Grantors desire to grant and Grantees desire to receive easements of ingress and egress and light and air over a portion of Parcel A, in substitution for the Reserved Easement and Set-Back, all on the terms hereinafter provided,

NOW, THEREFORE, for and in consideration of the mutual covenants and agreements set forth herein, it is hereby agreed by and between Grantors and Grantees as follows:

1. Grantors do hereby grant and convey to Grantees (a) an easement of light and air, and (b) an easement and right of way appurtenant to Parcel B, including the full and free use thereof by Grantees, subsequent owners and title holders of Parcel B, their agents, employees, servants, tenants, visitors and licensees, by automobile, truck or other vehicles or on foot, for ingress and/or egress purposes Parcel B for

21 260 891

Order: 15020713PKPK Doc: 21260891 Page 3 of 15 Created By: Linda Pazanin Printed: 10/7/2015 9:48:05 AM CST

the sole purpose of servicing the building presently located on Parcel B, to-wit, the delivery, pick up, loading, unloading and trsnaport of fuels, garbage, goods and materials of all kinds by the agents, employees, servants, tenants, visitors, invitees and licensees of, and any persons, firms or corporations servicing or supplying the owner of Parcel B or the building presently located on Parcel B, over, along and across the real estate legally and graphically described in Exhibit "A" attached hereto and made a part hereof ("Easement Parcel"). The easements described in this paragraph 1 hereof shall be effective only upon and at such time as the City of Chicago vacates the Alley and at such time the Reserved Easement and Set-Back shall be terminated and cancelled and be of no further force and effect.

2. It is understood and agreed that Grantors and all subsequent owners and title holders of the Easement Parcel reserve the right (a) to the full and free use thereof by Grantors, subsequent owners and title holders of Parcel A, their agents, employees, servants, tenants, visitors, invitees and licensees, by automobile, truck or other vehicle or on foot, over, along and across the Easement Parcel for ingress and egress to Parcel A and any buildings and garage to be constructed south and west of the Easement Parcel; (b) to service the buildings to be constructed south and west of the Easement Parcel by the use thereof of the Easement Parcel, including without limitation the loading, unloading and transport of fuels, garbage goods and materials of all kinds by the agents, employees, servants, tenants, visitors, invitees and licensees of, and any persons, firms or corporations servicing or supplying the owner or owners of the Easement Parcel; (c) to develop and use the area under the surface of the Easement Parcel provided the same does not interfere with the aforesaid easement r[illegible]s over, along and

21 260 891

Order: 15020713PKPK Doc: 21260891 Page 4 of 15 Created By: Linda Pazanin Printed: 10/7/2015 9:48:05 AM CST

and across the Easement Parcel; (d) to cause the building to be constructed south of the Easement Parcel to protrude above that portion of the Easement Parcel described in Exhibit "A" as the "Dock Area" provided that there is a clearance of fourteen (14) or more feet between the surface of the Dock Area and the protrusion of the building; and (e) to construct on the surface of the Dock Area such structural columns as may be necessary to support said protruded portion of the building provided that such columns are spaced in a manner which shall not unreasonably interfere with the intended use and function of the Easement Parcel as herein described.

3. Grantors shall pay all general real estate taxes, special taxes and special assessments assessed against the Easement Parcel for 1969 and subsequent years and shall, at its sole expense, obtain all necessary driveway and parking permits for the Easement Parcel, including without limitation a driveway permit granting vehicular access over the Easement Parcel to and from Clark Street.

4. Grantors covenant and agree with Grantees and with all other persons, firms or corporations now or hereafter acquiring any right, title or interest in Parcel B that no building or structure shall ever be erected upon the Easement Parcel except as provided herein and that the same, exclusive of the area under the surface thereof, shall perpetually be used only as a driveway, walkway, landscaped area or service area.

21 260 691

5. The easement and all rights and obligations created hereunder shall cease and terminate and be of no further force or effect immediately upon the destruction or demolition of the building presently located on Parcel B, provided that in the event said building is destroyed by fire or other casualty and a building like or substantially similar in size and function

Order: 15020713PKPK Doc: 21260891 Page 5 of 15 Created By: Linda Pazanin Printed: 10/7/2015 9:48:05 AM CST

is constructed in its place, this easement and the rights and obligations created hereunder shall remain in full force and effect.

6. The covenants, restrictions, conditions, agreements and charges set forth herein shall run with the land and bind all of the real estate described as the Easement Parcel and shall be enforceable by the Grantors and Grantees and any other persons, firms or corporations hereinafter acquiring any right, title or interest in all or in any part of Parcel A or Parcel B, their respective heirs, executors, successors, administrators and assigns.

7. Grantees hereby consent and agree to give its further consent to the City of Chicago to the vacation of the Alley or any portion thereof, and agree to execute any and all documents as requested by Grantors or their nominees or delivered to it by the City of Chicago in furtherance of such vacation; provided, however, that Grantors shall reimburse Grantees for any costs or expenses in connection therewith.

21 260 891

8. The Grantors agree, as promptly as possible (considering the reasonable staging of the proposed construction on Parcel A) to make such improvements on the Easement Parcel as may be necessary in order to enable the Grantees to make such use of the Easement Parcel as is provided for hereunder. Until such improvements are made, the Grantors agree to allow the Grantees ingress and egress rights across the existing "public alley to be vacated". Notwithstanding the aforementioned, the Grantors reserve the right to relocate said

Order: 15020713PKPK Doc: 21260891 Page 6 of 15 Created By: Linda Pazanin Printed: 10/7/2015 9:48:05 AM CST

area of ingress and egress from said "public alley to be vacated" to some other portion of Parcel A during the construction period and prior to completion of the improvements on the Easement Parcel.

IN WITNESS WHEREOF, the parties hereto have executed this document on the day and year first above written.

FORM 11

on

21 260 891

SEPT. 10, 1970

The Cosmopolitan National Bank of Chicago, as Trustee under the above entitled trust, holds only legal title to the premises which are the subject of this agreement, and it does not have any right, duty or obligation under the terms of said trust agreement to operate, manage or control said premises, but the right to operate, manage and control said premises is in the beneficiary or beneficiaries of said trust, and The Cosmopolitan National Bank of Chicago joins in the execution of this agreement, not individually but as Trustee, solely for the purpose of subjecting the legal title to the premises which are the subject of this agreement to the terms hereof. It is expressly understood and agreed by the parties hereto anything herein to the contrary notwithstanding that each and all of the covenants, undertakings and agreements herein made are made and intended not as personal covenants, undertakings and agreements of the Trustee named and referred to herein for the purpose of binding it personally, but this instrument is executed and delivered by the Cosmopolitan National Bank of Chicago, as Trustee solely in the exercise of the powers conferred upon it as such Trustee, and no personal liability or personal responsibility is assumed by nor shall it at any time be asserted or enforced against The Cosmopolitan National Bank of Chicago, its agent, or employees on account hereof or on account of any covenants, undertakings or agreements herein contained whether express or implied, all such personal liability if any being hereby expressly waived and released by all parties hereto and by all persons claiming by or through or under any parties hereto and by every person now or hereafter claiming any right or security hereunder.

Anything herein contained to the contrary notwithstanding, it is understood and agreed that The Cosmopolitan National Bank of Chicago, individually shall have no obligation to see to the performance or nonperformance of any of the covenants, undertakings or agreements herein contained and shall not be personally liable for any action or nonaction taken in violation of any of the covenants, undertakings or agreements herein contained, it being further understood that the payment of any money provided for herein and the performance of the covenants, undertakings or agreements herein contained shall be enforced only out of the trust property and the rents, issues, and profits thereof, if any.

THE COSMOPOLITAN NATIONAL BANK OF CHICAGO,
AS TRUSTEE, under Trust No. 15152,
and not individually,

# PHASE I ENVIRONMENTAL SITE ASSESSMENT
# USER QUESTIONNAIRE FOR PURCHASE TRANSACTIONS

Pursuant to the ASTM Standard E1527-21 and the EPA All Appropriate Inquiry Rule, the User of the Phase I Report must answer specific questions regarding the property and supply this information to the Environmental Professional completing the assessment. Failure to provide this information could result in a determination that "All Appropriate Inquiry" is not complete.

The User as defined by ASTM is the *"party seeking to use Practice E1527-21 to complete an environmental site assessment of the property. A User may include, without limitation, a potential purchaser of property, a potential tenant of property, an owner of property, a lender, or a property manager.* The User has specific obligations for completing a successful application of this practice as outlined in Section 6 (User's Responsibilities) of ASTM 1527-21.

## PROPERTY INFORMATION

| | |
|---|---|
| **User(s) Name:** | 2020 LPW Venture LLC |
| **Property Address:** | 2020 Lincoln Park West Unit CU2 Chicago, IL 60614 |
| **Property Type:** | Commercial |
| **Property Description:** | Lower level commericial condo, formerly White Hen Pantry & leased by 7-Eleven untl July 2024 |

***Please answer the following questions to the best of your knowledge:***

| ASTM C. F. Rs | QUESTIONNAIRE | User's Answers YES | NO | UNKNOWN / NA |
|---|---|---|---|---|
| 40 C. F. R. §312.25 | **1. Environmental Liens that are filed or recorded against the *subject property*** | | | |
| | Are you aware of any environmental cleanup liens that are filed or recorded against the subject property under federal, tribal, state, or local law? | ☐ | ☑ | ☐ |
| | ***If "Yes" is checked, please explain:*** | | | |
| 40 C. F. R. §312.26 (a) (1)(v) and (vi) | **2. *Activity and use limitations* that are in place on the *subject property* or that have been filed or recorded against the *subject property*.** | | | |
| | Are you aware of any AULs, such as engineering controls, land use restrictions or *institutional controls* that are in place at the *subject property* and/or have been filed or recorded against the *subject property* under federal, state, or local law? | ☐ | ☑ | ☐ |
| | ***If "Yes" is checked, please explain:*** | | | |
| 40 C. F. R. §312.28 | **3. Specialized Knowledge or experience of the person seeking to qualify for the LLP** | | | |
| | Do you have any specialized knowledge or experience related to the *subject property* or *nearby properties*? For example, are you involved in the same line of business as the current or former *occupants* of the *subject property* or *an adjoining property* so that you would have specialized knowledge of the chemicals and processes used by this type of business? | ☐ | ☑ | ☐ |
| | ***If "Yes" is checked, please explain:*** | | | |
| 40 C. F. R. §312.29 | **4. Relationship of the purchase price to the fair market value of the *subject property* if it were not contaminated** | | | |
| | (a) Does the purchase price being paid for this *subject property* reasonably reflect the fair market value of the *property*? | ☑ | ☐ | ☐ |
| | (b) If you conclude that there is a difference, have you considered whether the lower purchase price is because contamination is known or believed to be present at the *subject property*? | ☐ | ☑ | ☐ |

# PHASE I ENVIRONMENTAL SITE ASSESSMENT USER QUESTIONNAIRE

PROJECT # 27971-0225

In order to qualify for protection from landowner liability under CERCLA as an innocent landowner, bona fide prospective purchaser or contiguous property owner, ASTM standard practice E1527-21 and the federal AAI rule (40CFR312) require the User of the Phase I report provide certain information (if available) to the Environmental Professional completing the assessment. Failure to provide this information could result in a determination that "all appropriate inquiry" is not complete. Information that is not or cannot be provided to the Environmental Professional may be identified as a "data gap" in the Phase I ESA report.

Please answer the following questions as completely as possible. Attach additional pages as needed.

| | Yes | No | Not Known |
|---|---|---|---|
| 1. Are you aware of any environmental cleanup liens against the Property that are filed or recorded under federal, tribal, state, or local law? If yes, describe or attach details of the lien: | ◯ | ◯ | ◯ |
| 2. Are you aware of any Activity and Use Limitations (AULS) such as engineering controls, land use restrictions, or institutional controls that are in place at the Property and/or have been filed or recorded in a registry under federal, tribal, state, or local law? If yes, describe or attach details of the AULs: | ◯ | ◯ | ◯ |
| 3. As the user of this Phase I, do you have any specialized knowledge or experience related to the Property or nearby sites? For example, are you involved in the same line of business as the current or former occupants of the Property or an adjoining site so you would have specialized knowledge of the chemicals and processes used by this type of business? If yes, describe or attach details of your specialized knowledge or experience: | ◯ | ◯ | ◯ |
| 4. Does the purchase price being paid for this Property reasonably reflect the fair market value of the Property? If you conclude there is a difference, have you considered whether the lower purchase price is because contamination is known or believed to be present at the Property? | ◯ | ◯ | ◯ |
| 5. Are you aware of commonly known or reasonably ascertainable information about the Property that would help EPS Environmental to identify conditions indicative of releases or threatened releases? | ◯ | ◯ | ◯ |
| 5.1 Do you know any of the past uses of the Property? If yes, please explain: | ◯ | ◯ | ◯ |
| 5.2 Do you know of specific chemicals that are present or once were present at the Property? If yes, please explain: | ◯ | ◯ | ◯ |
| 5.3 Do you know of spills or other chemical releases that have taken place at the Property? If yes, please explain: | ◯ | ◯ | ◯ |
| 5.4 Do you know of any environmental cleanups that have taken place at the Property? If yes, please explain: | ◯ | ◯ | ◯ |
| 6. As the user of this Phase I, based on your knowledge and experience related to the Property, are there any obvious indicators which point to the presence or likely presence of contamination at the Property? If yes, please explain: | ◯ | ◯ | ◯ |

Please indicate if any of the following documents exist; if so, please provide them to EPS Environmental for review:

- ☐ Environmental Site Assessment Reports
- ☐ Environmental Compliance Audit Reports
- ☐ Environmental Permits (e.g., solid waste or hazardous waste disposal permits, wastewater permits, NPDES permits)
- ☐ Registrations for Underground and Aboveground Storage Tanks
- ☐ Registrations for Underground Injection Systems
- ☐ Material Safety Data Sheets (MSDS)
- ☐ Community Right-to-Know Plan
- ☐ Safety Plans, Preparedness and Prevention Plans, Spill Prevention, Countermeasure and Control Plans (SPCC)
- ☐ Reports Regarding Hydrogeolic Conditions (on Property or surrounding area)
- ☐ Notices/Correspondence from any Government Agency (relating to past or current violations of environmental laws or relating to environmental liens encumbering the Property)
- ☐ Geotechnical Studies
- ☐ Risk Assessments

# EXECUTIVE SUMMARY

## DESCRIPTION

Environmental Data Resources, Inc.'s (EDR) City Directory Abstract is a screening tool designed to assist environmental professionals in evaluating potential liability on a target property resulting from past activities. EDR's City Directory Abstract includes a search and abstract of available city directory data. For each address, the directory lists the name of the corresponding occupant at approximately five year intervals.

Business directories including city, cross reference and telephone directories were reviewed, if available, at approximately five year intervals for the years spanning 1923 through current. This report compiles information gathered in this review by geocoding the latitude and longitude of properties identified and gathering information about properties within 660 feet of the target property.

Summary information obtained is provided in the text of this report.

## RECORD SOURCES

The EDR City Directory Report accesses a variety of business directory sources, including Haines, InfoUSA, Polk, Cole, Bresser, and Stewart. Listings marked as EDR Digital Archive access Cole and InfoUSA records. The various directory sources enhance and complement each other to provide a more thorough and accurate report.

EDR is licensed to reproduce certain City Directory works by the copyright holders of those works. The purchaser of this EDR City Directory Report may include it in report(s) delivered to a customer.

- 8 Hour OSHA 29CFR1910.120(E) Site Supervisor
- Licensed Asbestos Inspector, State of Illinois Department of Health

## Education

B.A. Environmental Studies and Biology, Lake Forest College: Lake Forest, Illinois

## Professional Experience

EPS Environmental Services, Inc.
*February 2001-Present*
Senior Project Manager & Managing Partner

Performs or directly supervises Phase I Environmental Assessments, Environmental Transaction Screen Assessments, and Phase II Subsurface Soil and Groundwater Investigations. Manages and oversees Leaking Underground Storage Tank (LUST) sites, UST assessments and removals, and Illinois Environmental Protection Agency (IEPA) Site Remediation Program (SRP) projects. Conducts mold and asbestos sampling and assessments.

Bank One Corporation
*May 1999-February 2001*
Environmental Risk Officer

Developed strategies and solutions to assess and mitigate the environmental risks for the bank. Quantified the environmental risks to provide lenders with accurate remediation costs. Maintained the list of approved environmental consulting firms and contracted with firms for assessments and investigations on behalf of the bank. Reviewed and evaluated environmental assessment reports; provided technical expertise, advice and recommendations to relationship managers to support the credit review process.

Carlson Environmental, Inc.
*July 1994-May 1999*
Senior Project Manager

Managed and conducted large-scale field investigations and remediations, and prepared associated reports for heavy industrial facilities. Prepared project proposals and budgets, designed field investigation work plans, and conducted comprehensive soil and groundwater investigations. Conducted RCRA facility investigations; also managed, navigated and achieved the closure of LUST and SRP sites through the IEPA. Conducted Phase I Environmental Assessments throughout the U.S. and Canada. Acted as the Health and Safety Coordinator and as the equipment manager.
